Make Way For PowerPC!

In case you haven't heard, PowerPC is coming...and for Mac users, it could be the CPU of the future.

What exactly *is* PowerPC? It's an entirely new microprocessor developed jointly by Apple, IBM, and Motorola based on 32-bit RISC architecture. For non-techies, RISC stands for Reduced Instruction Set Computing, meaning it processes smaller instruction sets than traditional CISC (Complex Instruction Set Computing). In a nutshell, that means PowerPC can perform more work in less time.

How fast *is* PowerPC? Initial clock speeds range from 60MHz to 80MHz (about twice as fast as the current Quadras)! Best of all, PowerPC was designed to deliver that performance at a reasonable cost.

First-generation PowerPC machines will likely work with existing Mac applications. But to get the most from this exciting, new chip, you'll need software specifically designed to take advantage of PowerPC's unique architecture.

The products featured on this page are optimized to give you the performance advantages of PowerPC.

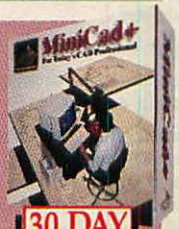
30 DAY MBG

Word Processing Perfection

WordPerfect 3.0 is the perfect way to produce more professional documents in less time. Combining text, graphics, and charts is a breeze! And the new version is optimized for use with PowerPC! Upgrade to the best WordPerfect yet!

4268 WordPerfect 3.0 ..... **$299.95**
12049 Competitive Upgrade **89.** 4711 Version Upgrade **74.95**

Fast, Powerful 2D/3D CAD



MiniCad 5 from Graphsoft gives you integrated 2D and 3D design tools, plus an interface to meet your needs. New MiniCad Modules provide tools tailored to specific application areas. And MiniCad 5 is ready for the future, optimized for use with PowerPC!

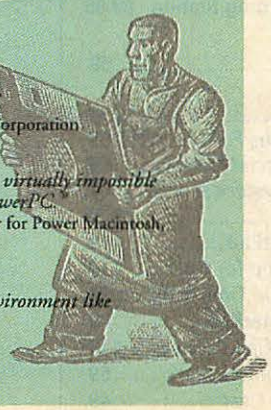
11724 MiniCad 5 ..... **$499.95**

Unlock the Painter Within

Create extraordinary image effects with **Painter 2.0** from Fractal Design. This 24-bit color paint program lets you transform scanned images with incredible effects like glass distortion and the Impressionist Cloner. Or give your photos the painterly look with more than 80 Natural Media painting tools.

10402 Painter 2.0 ..... **$264.95**



"Great company, fast compilers...how can you beat that?"
Lee Richardson, Development Manager, MacWrite, Claris Corporation

"Without the Metrowerks PowerPC compiler it would be virtually impossible to develop Adobe Illustrator for the Macintosh on the PowerPC."
Don Melton, Software Engineering Leader, Adobe Illustrator for Power Macintosh, Adobe Systems Inc.

"Mac developers have been waiting a long time for an environment like Metrowerks CodeWarrior."
Stanley Crane, General Manager R&D, cc: Mail Division
Lotus Development Corp.

The first and only native development environment for the Power Macintosh is here.

Metrowerks CodeWarrior is a screamer.
Experience RISC technology. Compile 200,000 lines a minute on the Power Macintosh 8100.
Metrowerks CodeWarrior is awesome.
Native C++ and C compilers for the Power Macintosh. Native C++, C and Pascal compilers for the 68K Macintosh. 68K Macintosh-hosted PowerPC compilers. Power Macintosh and 68K Macintosh source-level debuggers. A new Apple Object Model compliant application framework–Metrowerks PowerPlant. ToolServer, SourceServer and other developer utilities from Apple Development Products. It's all here.
Metrowerks CodeWarrior. A new way to buy.
Metrowerks CodeWarrior delivers 3 times a year. With your purchase of DR/2, you will receive DR/3 (which includes Metrowerks CodeWarrior Version 1.0) in May 1994, DR/4 in August 1994 and DR/5 in January 1995.

15444 Metrowerks CodeWarrior Bronze ..... **$199.**
Metrowerks C, C++, and Pascal for 680x0 systems
15445 Metrowerks CodeWarrior Silver ..... **299.**
Metrowerks C and C++ for PowerPC systems
15446 Metrowerks CodeWarrior Gold ..... **399.**
Metrowerks C, C++, and Pascal for both PowerPC and 680x0 systems

Newest Newton!

- 20MHz processor, 4MB ROM, 1MB RAM.
- One PCMCIA type 2 card slot and LocalTalk-compatible serial port.
- Weighs only 1.28 lbs.
- Time-zone maps, calculator, currency-exchange.
- Connect via infrared to other Newtons, print to virtually any printer, or send and receive data via faxmodem.
- Wireless paging with the optional PCMCIA Messaging Card.
- Share data and synchronize files with Macs (or PCs running Windows).
- Integrated Notepad.
- Intelligent assistance: intuitive help making phone calls, faxing, finding data, sending e-mail, printing, scheduling meetings, and completing to-do lists.

1332 ..... **$599.**

Apple Newton MessagePad 110

- *Sleeker and More Compact!*
- *Better Handwriting Recognition!*
- *Longer Battery Life!*
- *More Memory!*
- *Free External FaxModem, While Supplies Last!*
- *Free Month's Subscription to Newton Mail Magazine!*

FREE! External FaxModem (2400 bps data, 9600 send-only fax) with MessagePad while supplies last.

EXCLUSIVE BUNDLE

Your entire business in the palm of your hand.

Capture, organize, and communicate all your business and personal information with the brand new **Apple Newton MessagePad 110**. Its improved ability to read your handwriting allows free-form notetaking—mixing handwriting, printed text, and graphics all on the same page. You can turn your print or cursive handwriting into typed text (letter by letter or word by word) and let the MessagePad clean up your drawings.

New features of the MessagePad 110 include three times the amount of memory available for data storage, a fast recharge feature, easier infrared transfers, a retractable stylus, and a new protective lid.

To-do lists let you assign priorities. When you check off completed tasks, Newton updates the next day's list for you. You can also create and maintain hundreds of contact files with a familiar business-card look-and-feel, and stay on schedule with monthly, weekly, and daily calendars. It's your complete personal assistant.

Load up Your Newton!

Style and Power for Portable Computing

30 DAY MBG

Protect your Newton and give it enhanced battery life with the **Leather Newton Case and Battery** from Battery Technology, Inc. It's made of glove-soft leather with strap to hold your Newton securely, internal pockets to hold software, and a flapped external pocket. And it has a built-in rechargeable battery for extended computing time.

15545 Leather Newton Case and Battery $99.95

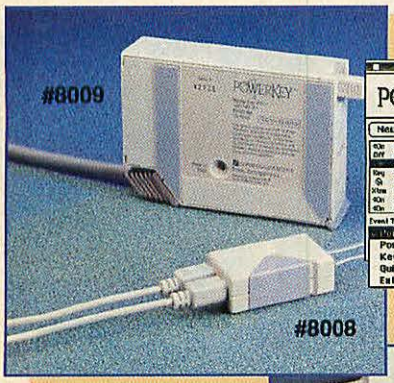
For extended battery life, choose the **SlimPack** battery pack. It delivers 8.5 to 11 hours of life. Features compact profile, no memory effect, and easy recharging. Run your PowerBook off a standard car lighter socket with the compact **Auto Power Adapter.**

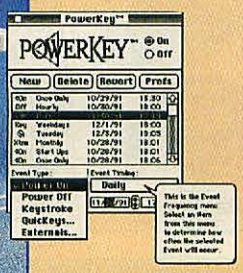
15544 SlimPack $149.95
12044 Auto Power Adapter 64.95

Maximize your PowerBook's energy life with the **MC-180 PowerGage** battery, specially designed to minimize memory effect. A built-in IC chip monitors battery charge and an LED display gives you an instant visual indication of charge. An internal thermostat protects your battery from overheating. An integral cover plate with latch provides secure connection to your PowerBook. The **MC-170** offers many of the same features, except the IC charge monitor and LED. Charge and condition your batteries with the BTI **PowerCharger.** It's designed to charge batteries completely, eliminating "memory effect." The **PowerBook Starter Kit** includes the MC-170 and the PowerCharger.

9842 Extended Power MC-180 PowerGage $79.95
7562 Extended Power MC-170 ..... 59.95
10392 PowerCharger 64.95
10390 PowerBook Starter Kit 119.95

"Key" Accessories for Your Mac





PowerKey 2.1.2 automatically turns on your Mac and up to three peripherals from the keyboard and protects your system from powerline surges, spikes, noise, and overload. **PowerKey Remote** turns on your Mac with a phone call. You can even tell PowerKey Remote's control panel software to shut down your Mac when you're through with it. Imagine being able to send faxes, access electronic mail, or transfer files—all from a remote location. Designate automatic functions for preset times. Alone, PowerKey Remote turns on a Mac II; add PowerKey and turn on any Mac SE, LC, Classic, and peripherals.

8009 PowerKey 2.1.2 ..... $75.95
8008 PowerKey Remote 32.95

Give your Mac the power of automatic speed dialing with **Desktop Dialer.** Simply highlight a number, press a key, select a phone line, and it dials your call. Use it while working in any Mac application!

10172 Desktop Dialer $47.95

PowerPad, the *Eddy-Award*-winning 10Key for the PowerBook, from Sophisticated Circuits, is ergonomically designed for comfort and accuracy. Keys can be reconfigured into a financial calculator layout. Also available with **QuicKeys 3.0.**

30 DAY MBG

7425 PowerPad Granite $69.95
7419 PowerPad Granite with QuicKeys 3.0 ..... 109.95

ORDER BY FAX: 603-446-7791

Free Connectix PowerBook Utilities! ($79 value)

30 DAY MBG

Up To Five Times the Battery Life

Extend the life of your PowerBook battery with Technoggin's high-capacity PowerPlates—1993 *MacUser* Eddy Finalists for *Best New Portable Computing Product*. They attach easily and perfectly match your PowerBook. Your AC adapter charges PowerPlate and PowerBook batteries simultaneously. (No "memory effect.") **PowerPlate 3x** gives 2.5 to 3 times the runtime; built-in two-stage charging circuitry with LED status indicators. "The best solution if you regularly need longer battery life" (*MacWEEK* 1/3/94). The slightly thicker **PowerPlate 5x** offers the same benefits, plus 4 to 5 times the life of your PowerBook battery. "An automatic purchase for color PowerBook users" (*MacWEEK*). **PowerPlate Mini3** is a stand-alone battery with 2.5 to 3 times the runtime in an ultra-compact package. All include *Connectix PowerBook Utilities* 2.03 (Regularly sells for $79!).

$219.95

14014	PowerPlate 3x *(with CPU)*	
15570	PowerPlate 4x for Duo *(with CPU)*	279.95
14015	PowerPlate 5x *(with CPU)*	279.95

Includes StuffIt SpaceSaver!

30 DAY MBG

Make Your PowerBook Go Further

Maximize the power and efficiency of your PowerBook with **Power To Go** from Claris Clear Choice. This indispensable utility extends the time required between battery charges, expands the amount of data you can store on your hard drive, and more. Its intelligent power management utility lets you set desired power consumption with a simple "slider bar" adjustment—Power To Go does the rest! You control processor speed, sleep functions, screen backlight level, and more. Power To Go also includes *StuffIt SpaceSaver*, the utility that effectively doubles your hard drive's capacity. In addition, StuffIt gives you the option of selective compression and file archiving. Other features include password security, instant screen blanking, instant start-up display (great for speedy airport security checks), and a world travel clock with customizable city and time zone settings. No matter how you use your PowerBook, Power To Go helps you get more into it and more out of it!

12596	Power To Go 2.0 *(Now with Stuffit SpaceSaver!)*	$29.95

Better Battery Charging

Battery chargers and adapters from Lind Electronics Design are designed to offer you greater convenience, increased battery life, and enhanced performance for all PowerBook batteries. No more battery swapping! The **BC-1000 Condition-in-Place Unit** lets you charge and condition your PowerBook battery without removing it from the computer. Get every drop of power with the **BC-4070 Full Cycle Charger-Conditioner**. It lets you discharge your PowerBook battery before charging it, thus eliminating loss of capacity due to "memory effect."

Want to run your PowerBook off your car, RV, or boat battery? The **PB-2 Automobile Power Adapter** is a specially-designed adapter that lets you operate on standard 12-volt DC battery power. In a hurry? You can completely charge your PowerBook battery in as little as two hours with the **SBC-1 Supercharger-Conditioner**. The **SBC-2 Duo Supercharger-Conditioner** is designed for use with PowerBook Duo batteries.

$44.95

14838	BC-1000 Condition-In-Place Unit	
14589	BC-4070 Full Cycle Charger-Conditioner	54.95

Take a Proactive Approach to Planning

To map out a plan for personal productivity, you have to establish your goals and priorities. That's the idea behind Visionary Software's **First Things First Proactive**. It's the integrated time management system that doesn't merely help you get things done, it helps you get the right things done.

First Things First Proactive integrates planning, prioritizing, and scheduling with drag-and-drop ease. Use its outlines to quickly establish goals, ideas, and action items. Drag the items to prioritize them, and you've got a plan. Drag them onto the calendar and you've got a schedule based on your plan—automatically. Want to see the "big picture"? Flip from any calendar view to the outline view. First Things First Proactive also makes it easy to manage and delegate tasks over a network to keep your whole workgroup on top of things. Get organized the right way, with First Things First Proactive!

Small Business Accounting with Big Features

Taking care of business is easy with **M.Y.O.B.** 4.0 from BestWare. You flunked Accounting 101? No problem. M.Y.O.B. includes pre-formatted templates for everything from invoicing to inventory control, customized to more than 30 business types. It's all here—general ledger, inventory control and analysis, tax calculation, cash flow analysis, management reporting, check writing and more. It even has a "to-do" list that gives you an instant overview of your business situation: Who owes you money? Has anything in inventory dropped below your pre-set order level? Plus, M.Y.O.B. lets you easily create customized invoices, statements, checks, and forms for that "big business" look. New features for Version 4.0 include simplified start-up, recurring sales and purchases for frequently-produced invoices and purchase orders, and more. Of course, M.Y.O.B. retains the ease-of-use and flexibility that have made it the leading small business accounting package.

M.Y.O.B. with Payroll features a powerful payroll module with a "smart" tax engine that automatically calculates state, federal, and local taxes for each employee.

The Ultimate Paperless Form Manager

Business Forms Without the Paper!

With Shana's **Informed Foundation**, you can turn your current forms—purchase requisitions, invoices, expense forms, and those forms that only your business uses—into exact electronic replicas. Users can simply fill out the familiar forms on their Macs, sign them with Apple's PowerTalk (in System 7 Pro), then forward them to others as needed—all electronically. Calculations and error checks are built in. Revised forms are automatically distributed. You'll never again throw out thousands of dollars worth of obsolete forms.

For customized power or to automate routine tasks, use Informed's AppleScript capabilities. Informed Foundation includes *Informed Designer* and *Informed Manager* (also sold separately), and *Informed Number Server* and *Informed Revision Distributor*.

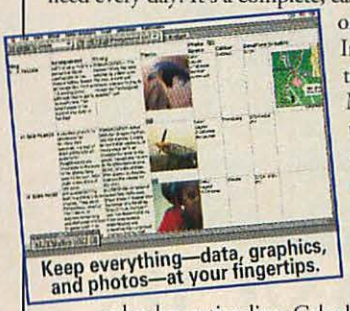
Organization Made Easy

Introducing the organizational tool that organizes more than just information. Chena Software's new **InfoDepot** is designed to help you work with the information you need every day. It's a complete, easy-to-use organization solution.

InfoDepot



Keep everything—data, graphics, and photos—at your fingertips.

InfoDepot is more powerful than a Personal Information Manager (PIM), yet less rigid than a project manager or database. You work with information the way you want to. Collect all types of information in a custom table, see it in different views. Schedule with the calendar or timeline. Calculate numbers and dates with custom formulas. Save layouts to focus on specific information—fast. Rearrange, sort, and search. Organize your entire group with multi-user capabilities. Build connections to other documents. Automate repetitive tasks with complete AppleScript support. Exchange information with popular software applications like *QuarkXPress*, *TouchBase*, *WordPerfect*, *Now Up-to-Date*, or *Excel*. InfoDepot will change your mind about software!

Easy-to-use, customizable interface makes finding information a snap.

Organization Charts Made Easy

Create professional-looking organization charts in no time with **Org Plus for Macintosh**, from Banner Blue Software. With automatic chart drawing, easy editing, custom formatting, and compact layouts, this organizational chart drawing program lets you design the exact chart you need quickly and easily. To add boxes (up to 2,000 per chart), just select a box tool and click on the chart.

Org Plus automatically draws and spaces the boxes and precisely lays out connecting lines. With a few mouse clicks you can add, insert, delete, or move boxes and text. Choose from over 50 different chart, box, and line styles.

Add your company logo, draw boxes around a task force, or type notations anywhere in the chart. The unique "Make Fit" command helps you fit large charts on a single page. Org Plus for Macintosh charts with Org Plus (DOS) and Org Plus for Windows users.

3548 Org Plus For Macintosh 1.0 ..... **$125.**

Keep Track of it All

Named *Best Organizational Tool* by *MacUser* (3/93), Attain's **IN CONTROL** lets you take control of all your tasks without getting lost in the details. Do you jot down all the things you need to accomplish on yellow stickies, calendars, notebooks, or whatever's at hand? Do you wish you were more organized? With IN CONTROL you can easily keep track of it all—not just when to do things, but what to do. Use its powerful outliner to list all the tasks, activities, and projects you need to accomplish. Then categorize them in as many columns as you choose. Sorting and grouping them help you focus on what to do—today's high-priority items or a particular project, for example. The integrated calendar helps you keep track of when to do things. IN CONTROL also includes reminders, linking, scripts, and printing to popular executive organizers. Organize, categorize, prioritize, and simplify your life with IN CONTROL!

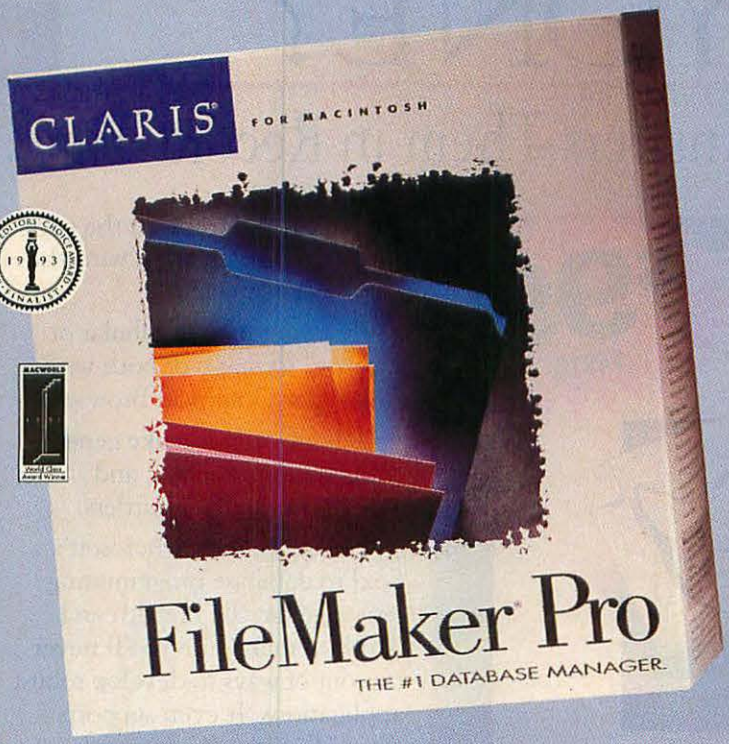
PROFESSIONAL DATABASE POWER WITHOUT THE PROGRAMMING.



Customize your database files with color, graphics—even your company logo.

With FileMaker Pro, you can attach commands to buttons without programming.

Managing mountains of information doesn't have to be an uphill battle—not when you've got **FileMaker Pro 2.1**. It gives you powerful database features, yet it's incredibly easy to use. And it's versatile. FileMaker Pro works seamlessly across platforms, so it's ideal for office environments where Macs and Windows PCs coexist.

With FileMaker Pro, you can manage all kinds of everyday functions: tracking invoices, generating mailing lists, keeping purchase orders in proper sequence, keeping tabs on the progress of projects—just about anything that involves organizing and accessing information. FileMaker Pro helps you do it better, in less time.

How? Let us count the ways. Predesigned, professional templates make quick work of creating a customized database. User-definable buttons give all your files customized point-and-click ease. Comprehensive graphics tools streamline the creation of great-looking layouts, forms, and reports. ScriptMaker automates task sequences and menu operations. Built-in calculation functions perform automatic numerical analysis. And that's just for starters. FileMaker Pro even supports QuickTime, so you can liven up your databases with full-motion video, animation, and digital sound.

FileMaker Pro also has expanded, new networking support for a wide variety of LAN environments that allows users to share data across platforms. FileMaker Pro looks and works exactly the same for both Mac and PC users—so they share data with complete, seamless integration.

Best of all, FileMaker Pro gives you access to all this sophisticated database functionality with absolutely *no programming*. It's designed to work the way you think, combining common sense with uncommon simplicity. Upgrade to the latest FileMaker Pro today and save!

FileMaker Pro at a Glance.

- Build sophisticated, customized databases quickly and easily
- Pre-designed templates give you ready-made database solutions
- Enhanced, transparent file compatibility between Macs and PCs
- Easily dress up reports and forms with custom graphics
- Automate repetitive tasks with powerful ScriptMaker macros
- Attach commands or scripts to buttons without any programming

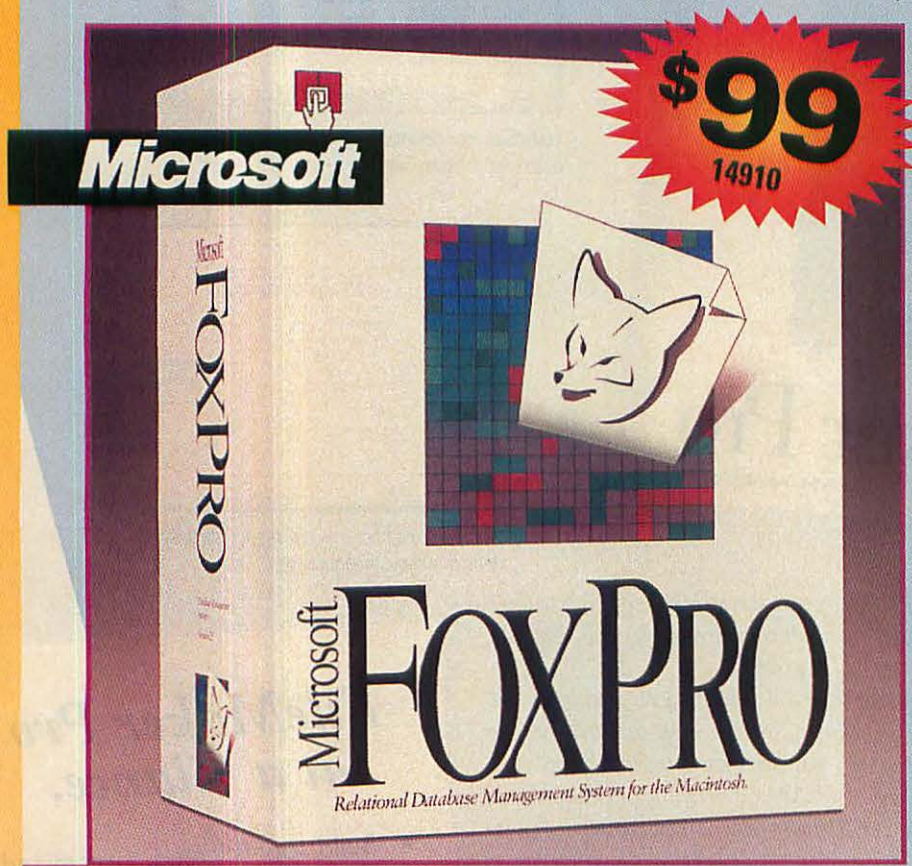
QUERIES ANYONE?

This Quick Mac Fox Answers Them in Record Time.



With a name like Rushmore you'd expect the new query optimizing technology in FoxPro 2.5 for the Macintosh to have monumental performance. Well, query tests by Micro Endeavors, Inc. clock this speedster to run 13 times faster than leading competitors! Query multiple tables at once using Relational Query By Example and see your answers in a flash. When you need answers fast, you need the horsepower FoxPro 2.5 puts at your fingertips.

Develop custom database apps in record time, too!

What really makes this quick brown FoxPro jump is the creative potential that's waiting for you at every stage of the development cycle.

- Use the Screen Builder to graphically create detailed screens.
- Click on the enhanced Report Writer to design complex business reports that really stand out.
- Manage and track all the parts of your new creation with the Project Manager.
- View your data in tabular or record format—or both with the new Graphical Browser.
- Helpful wizards make generating screens, reports, and graphs virtually effortless.

On top of that, Microsoft's FoxPro database programming language has the breadth and depth to make sure you'll never run out of ways to develop robust applications. It even supports Apple Events, XCommands, XFunctions, and QuickTime video.

Leverage your development efforts every time you create an application. You don't have to change a thing to run FoxPro Mac applications in FoxPro Windows, MS-DOS, or UNIX operating systems. Or vice-versa. Share FoxPro-based applications and data files with users on all platforms simultaneously. You not only get incredibly easy cross-platform development capability, you also get the ability to develop an endless array of ultrafast custom database applications and powerful tools for both developers and users.

There's no end to how you can give form and substance to all your visions when you hole up in your den with FoxPro 2.5 for the Macintosh.

Database Ease, Power, and Speed

Looking for a database easy enough to use in minutes, but powerful enough to use for years? That's **Panorama 2.1** from ProVUE Development. It lets you create custom database applications quickly and easily. And, unlike other sluggish databases, the applications you create with Panorama run with incredible speed, allowing unsurpassed productivity. Step-by-step dialogs help you quickly set up files, labels, and reports. Special data-entry shortcuts automate all kinds of commonly-performed tasks and patterns; powerful analysis tools let you see the trends often hidden in mounds of data. It also lets you correct problems like incorrect or improperly formatted data entry in seconds. The new version offers many new features, including a graphic editor that supports 256 colors; support for advanced double-sided report printing; the ability to rearrange and pre-process data as it is being imported; powerful new macros and formulas, and more.

The graphical tool palette lets you easily create databases of every description.

- 12 TrueType fonts
- 100 ClickArt images
- Specialty paper samples

Booklets are a great way to communicate information—and now they're incredibly easy to produce right on your laser or ink jet printer, thanks to **ClickBook** from BookMaker. This ingenious program takes any multi-page document from any Macintosh application and lets you quickly turn it into a double-sided booklet. Just select the 'use ClickBook' option in the page setup or use the Control Panel to print with ClickBook. ClickBook offers you a variety of size and layout options for your booklet, then automatically prints the right pages in the right place. All you have to do is fold and staple your booklet. And you save paper, because ClickBook prints multiple pages on a single sheet.

ClickBook produces great-looking booklets from 2.5" x 3.5" to 8.5" x 11" and it works with any Macintosh word processor, spreadsheet, database or presentation program. See why Macintosh guru Guy Kawasaki called it "one of the most important new Macintosh products this year."

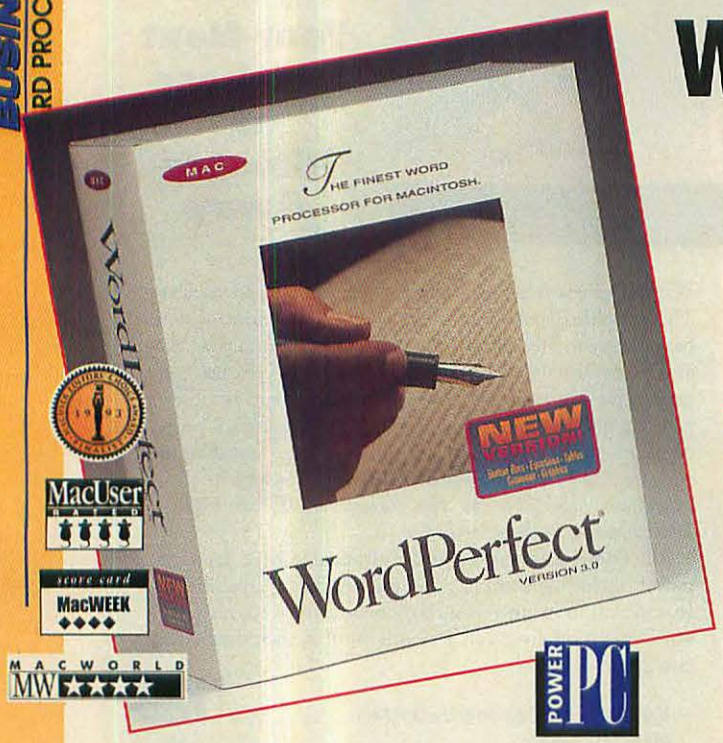
Looking for a word processor that offers both ease and impact? That's **MacWrite Pro** 1.5 from Claris. It provides you with a complete writer's tool kit that helps you make the most of your ideas on paper. Easy-to-use tables let you organize and communicate information visually. Style sheets let you develop, save, and re-use distinct styles in any document. WYSIWYG display and page guides provide direct editing in zoom mode. Fast spell checking keeps your prose letter-perfect and the synonym finder makes sure you're never at a loss for just the right word.

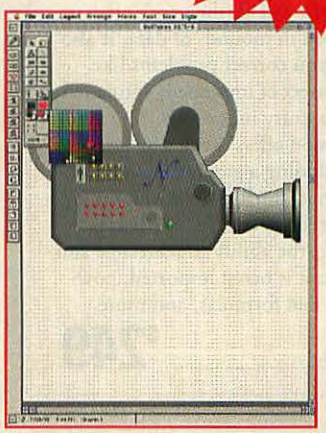
You also get desktop publishing functions like graphics frame creation and control, text wrap around frame elements, character tracking, and automated tables of contents. New features include support for Apple PowerTalk, AppleScript, QuickTime, Apple Events, and Edit Graphics Object for greater productivity and sharing documents with other people and programs.

14732 MacWrite Pro 1.5 ..... **$95.**

The Perfect Time To Upgrade! WordPerfect 3.0



FOR ONLY $74.95 #4711



Create or customize your own graphics with WordPerfect's comprehensive set of powerful, built-in drawing tools...

...then seamlessly integrate them into your documents—together with text, charts, and more—with just a few simple clicks!

The Perfect way to easier formatting, greater productivity, faster work, and more color and graphics in your writing is **WordPerfect** 3.0.

You get Macros to help you simplify complex tasks, Button Bars for quickly executing any command, Merge for combining documents, a graphical Equations editor, Drawing Tools, Border styles, and Color Text for highlights. Make a Table of Contents just by marking and defining your section headings or generate a perfect index just by creating a list of words.

The ingenious and versatile Tables features are great for arranging, and re-arranging virtually any kind of information. You can create up to 32,000 rows and 32 columns and format individual cells, groups, or entire rows or columns. You can even add headings that travel from page to page. And tables aren't just for words, either. Use the Math feature to create mini spreadsheets: add, subtract, multiply, and divide cells.

What else could you want?

- 125,000-word Spell Checker, Thesaurus, and *Grammatik 5* included free as an integrated pull-down menu. (Sold separately, too.)
- Use several languages in a single document and spell check them all. Compatible with Apple's WorldScript.
- The Columns feature lets you arrange text in unequal, irregularly spaced, or different width formats—change from one to another in the middle of a page.
- Ruler Bars make formatting a snap.
- Use Bullet Indent to turn long paragraphs into easy-to-read lists.
- Styles give different projects different looks. Fast.
- For things that should be the same every time, Stationery lets you create standard business headings.

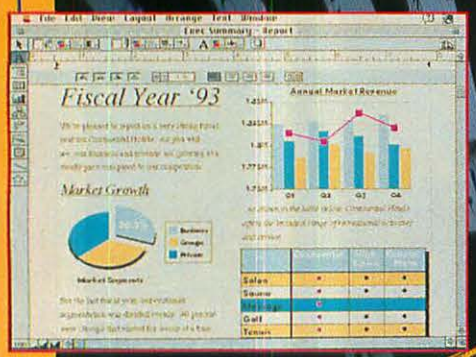
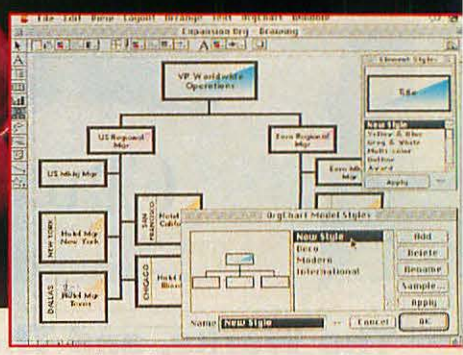
NEW! PRODUCT

BUSINESS GRAPHICS NEVER HAD IT THIS EASY.



High-impact business reports.



Professional business charts and diagrams.

ClarisImpact at a Glance.

- Design dazzling graphics, reports, presentations, and drawings.
- Create business charts and graphs automatically with templates for org charts, flow charts, data charts, timelines, calendars, and more.
- Choose from professionally-designed style options for exactly the look you want.
- Edit "smart" graphics and text directly in your final document—you lose no detail or resolution.
- Built-in word processing and presentation capabilities let you produce finished reports and slide shows.
- Import and export information created in your favorite graphics, charting, and word processing apps.

Now there's an entirely new way to create and manage business graphics. In a single intuitive program, **ClarisImpact** provides a wide range of pre-designed business charting and diagramming tools, revolutionary editing capabilities, and full word processing and presentation features.

Design dazzling graphics, reports, presentations, and drawings. Instead of starting from scratch, you simply select the diagram model you need and enter the information. Then ClarisImpact automatically creates the entire graphic with the predesigned style of your choice for organization charts, data charts, timelines, calendars, and more.

Editing is fast and efficient, thanks to the intelligence built into every graphic. When you need to move, resize, or change an object, ClarisImpact automatically adjusts the proper alignment, spacing, and connections. If you want to change the graphic look of an entire chart or individual chart element, simply select a new look from a list of pre-defined, customizable style options. Import and export information created in popular graphics, charting, and word processing programs. A full set of drawing tools is included, so you can manage the smallest graphic details.

When it's time to put words with your images and send them out to conquer the world, ClarisImpact provides fully integrated word processing and presentation capabilities. So you can edit text and graphics directly in your final presentation.

Now it's easy to create, edit, and customize professional-looking organization, data, flow, timeline, and table charts—in a fraction of the time it used to take.

Enhance your photos with easy-to-use tools, previewing changes before you implement them.

Add Photos in a Flash!

30 DAY MBG

Looking for a fast and easy way to add photographic impact to your documents? Don't hire an image specialist—get **PhotoFlash** from Apple Computer. It's the simple, affordable alternative to complicated and expensive photo-publishing programs. In fact, it costs less than half as much as *Adobe Photoshop*!

PhotoFlash is a page-layout companion that enables you to quickly and easily acquire photos, enhance them, and place them in your documents. It's designed to give average computer users above-average results. And, unlike those high-end programs, PhotoFlash doesn't require gobs of extra memory. And it's so easy! Use the integrated browser to choose the right photo. Then use the automatic photo-enhancement tools to resize your picture, remove dust and scratch marks, balance image exposure, and make everything picture perfect. You can automatically place photos in popular page-layout programs like *QuarkXPress* and *Aldus PageMaker* thanks to PhotoFlash's built-in AppleScript support; you even get several ready-made scripts. And PhotoFlash has integrated image-compression capabilities, so you won't need a gargantuan hard drive to store your pictures.

PhotoFlash supports all major image file standards, including PICT, TIFF, JPEG, Photoshop, PhotoCD, EPS, and DCS, and it can convert them in single or batch modes. Give your documents the power of photos with PhotoFlash!

Plug-In Filters based on Adobe Pathfinder technology helps you take advantage of all the power of **Adobe Illustrator** 5.0 much more easily—from directly manipulating overlapping areas of multiple objects to cloning new objects from selected areas of existing ones. Use filters to combine, divide, slice, dice, or crop. They even help to create special effects like drop shadows and transparent shapes.

You can adjust imported graphics without exiting Illustrator (changes will be reflected automatically via Apple Events). Illustrator 5.0 also lets you perform multiple levels of undo/interruptible redraw, provides automatic hyphenation, and even lets you edit in preview. For original illustrations, you can work with a broad range of drawing and painting tools including pressure-sensitive brushes and tablets, a calligraphic pen tool, eyedropper, and paint bucket.

Order the **Deluxe CD-ROM** version and receive 40 additional Type 1 fonts, expert tips & techniques in QuickTime format, tryout versions of other Adobe products, along with *Collector's Edition 1 & 2* and *Digital Art Gallery*, professional clip art you can use in your own drawings.

MACUSER EDITORS' CHOICE AWARD WINNER 1993

MACWORLD World Class Award Winner

Adobe

FEATURE HIGHLIGHTS:

- Work with an unlimited number of layers and move objects between them.
- Create custom floating palettes for frequently used colors.
- Select your own custom gradient fills.
- Use the type palette for fast type selection.
- Set up custom views to observe different parts of images in different modes simultaneously.

Banish the Bits.

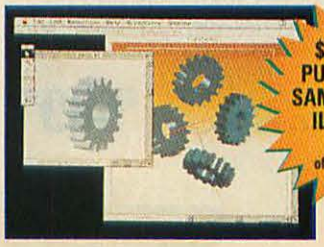
Turn any image into flexible line art instantly. Adobe Streamline 3.0 lets you quickly convert any black-and-white or color bitmapped image into Adobe PostScript line art. Then you can scale it to any size in your drawing program—its lines stay sharp and clear. No more having to work with distortion-prone scanned images. Edit without losing image quality and print beautifully at any resolution. *Free from Adobe with purchase of Illustrator.*

5001 Adobe Streamline 3.0..... $129.95

Depth Perception.

Go from 2D to 3D with ease. Adobe Dimensions lets you create, extrude, revolve, bevel, and manipulate simple 3D objects and effects and integrate them in *Illustrator, FreeHand* and *Canvas* artwork. Perform 3D rendering using fully editable Bezier curves and automatically generate shading based on lighting, view angles, and surface properties.

10167 Adobe Dimensions $129.95



ONLY $79.95 WHEN PURCHASED ON SAME INVOICE AS ILLUSTRATOR #6826 offer expires 3/31/94

OPEN YOUR OWN Adobe ArtStudio

THE ULTIMATE TOOL FOR ARTISTS, DESIGNERS, AND PHOTOGRAPHERS.

Create original artwork, retouch color or black-and-white scanned images, and prepare high-quality color separations and output right at your desk! Adobe Photoshop is the complete paint, professional prepress, and darkroom system.

Designers can start with a blank canvas or scan an image directly into the program. Import Adobe Illustrator files directly. Export all or part of an image to your page layout program. Paint in more than 16 million colors and use filters to generate special effects.

Photographers get unprecedented flexibility and control over processing and enhancing images, as well as the ability to create effects not possible with traditional means. Version 2.5 includes a complete set of tools for color correction, retouching, dodging and burning, masking, composites, montages, and more.

Service bureaus and color separators get the functionality of dedicated prepress systems at a fraction of the cost. You can scan, correct, and separate continuous-tone images, and even perform on-screen color editing in CMYK mode.

The Tools To Make Photoshop Sing!

Brush up your artwork with Paint Alchemy from Xaos Tools. This intelligent brushing engine is an Adobe Photoshop plug-in with 36 brushes and 75 filter styles (such as Pastel, Ripple, Vortex, Threads, Smoke, and Bubbles). Use the built-in styles to automatically apply intelligent, "painterly" brushstrokes to any digital image. Import any PICT file to create your own brush for a signature style which can be saved as a new or unique filter. Paint Alchemy was just awarded 4 Mice (*MacUser* 2/94). The perfect companion for Paint Alchemy is Floppy Full of Brushes. Get 50 more professional designed brushes to broaden your palette of painterly effects.

$69.95

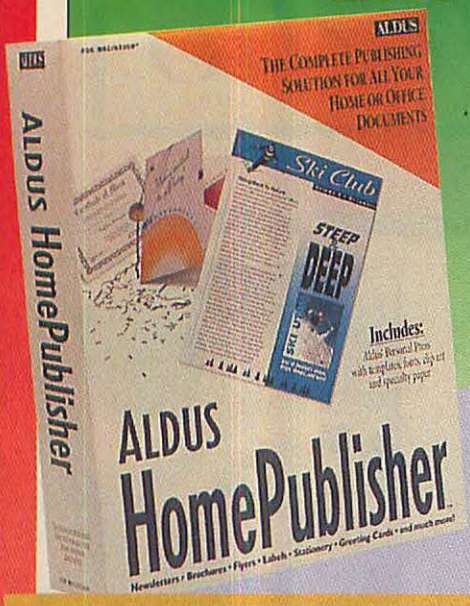
Publishing Power for Peanuts



You don't have to be rolling in dough to roll the presses. **Aldus HomePublisher** from Aldus Corporation includes everything you need to create first-class publications quickly and inexpensively. It starts with *Personal Press 2.01* and adds more than 50 AutoCreate templates to help you design great-looking newsletters, brochures, stationery, flyers, greeting cards, labels, and more. It also includes an integrated word processor with spell checker and thesaurus, copy fitting, 12 Bitstream TrueType fonts, 100 T/Maker ClickArt images, and 25 sheets of specialty paper from PaperDirect.

SuperPaint 3.5 combines the best of paint and draw programs. Create everything from simple logos to sophisticated, full-color art with a single application! New features include: copy brush, crop mark, grid, magic marker, pressure-sensitive tools, templates, and System 7 support. You also get up to 24-bit color, textures, gradients, full color TIFF and EPS graphics support, AutoTrace, Bezier editing, arrows, dashed lines, color balancing, brightness and contrast, and masking. TWAIN support to directly read in scanned images and a QuickTime plug-in module. The **Aldus Paint & Publish Bundle** gives you both Aldus Home Publisher and SuperPaint at an attractive savings.

Includes:
- Personal Press desktop publisher
- 50 Format Templates
- 12 TrueType fonts
- 100 ClickArt images
- Specialty paper samples

Create:
- Greeting Cards
- Brochures
- Newsletters
- Stationery
- Calendars and more!

Character Recognition for the Real World

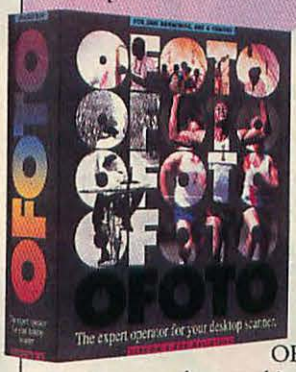
Enjoy the highest level of OCR accuracy together with easy, one-button operation. **TextBridge** Mac 2.0 from Xerox Imaging Systems lets you easily edit, store, search, or distribute converted text into your favorite Mac applications, like *MS Word, WordPerfect,* or *Lotus 1-2-3.* TextBridge Mac excels in reading documents that contain mixed typefaces, graphics, or multiple columns and provides unparalleled accuracy on faxes. TextBridge features include: Xerox's own Lexifier for pattern recognition accuracy; a TIFF Queue that allows you to process multiple TIFF files into one document; a powerful Word Verifier; a fax filter for unsurpassed recognition of faxes and other degraded documents; and support for AppleScript and TWAIN standards. Xerox Imaging Systems continues to redefine the industry standard in OCR price and performance!

15345 TextBridge Mac 2.0 ..... **$74.95**

Superior Scanning, Automatically

Now you can get accurate, high-quality color and B&W scans with the click of one button. Light Source's award-winning scanning technology in **OFOTO** consistently produces high-end quality color and gray-scale images and line art from your desktop scanner.

Ofoto's easy-to-use menus let you automate virtually every aspect of your scanning.



Put your artwork on the scanner bed, click Autoscan, and watch while OFOTO automatically scans, straightens, crops, sharpens, and adjusts the highlight and shadow points of your image. At the same time, OFOTO calibrates the scanned image to make the print on your particular output device match the original perfectly. OFOTO includes tools needed to correct common photographic problems like incorrect exposure, poor focus, and color cast. It also produces excellent process color separations (CMYK). Compatible with Apple ColorSync color management system. Requires a Mac Classic II, LC, SE/30 or greater running System 6.0.7 and up.

MacUser 4½

11059 OFOTO Version 2..... **$275.**

Manipulate Still and Moving Images

Welcome to the world of professional image editing. **Adobe Audition** 1.0 is the easy, inexpensive solution for editing both photographic and video images. Adobe Audition combines limited editions of two of the leading graphics manipulation programs: *Adobe Photoshop LE* and *Adobe Premiere LE.* Together, they give you all the tools needed to edit scanned photos or video footage.

Adobe Photoshop 2.5 LE lets you manipulate photos in any way imaginable. With a few keystrokes, you can add or correct color and execute delicate retouching. You can even import filmstrips from Adobe Premiere LE and edit individual frames.

Turn your Mac into a video editing suite with Adobe Premiere LE. Create QuickTime movies by combining video, audio, animation, still images, and graphics. Then produce your movie for small- or full-screen viewing, or export it to videotape.

Both Adobe Photoshop LE and Adobe Premiere LE have all the features of their parent programs except certain high-end capabilities, such as producing duotones or CMYK color separations. If you're ready to discover the magic of image editing, your Audition awaits!

8193 Adobe Audition 1.0..... **$164.95**

Dazzling Digital Images

Create a Young Expert!

Young experts love learning with Edmark's award-winning educational software. Each product combines engaging activities with delightful animation, sound, and voices to teach kids important basics. All instructions are given verbally or graphically, so even the youngest can jump right in to play and learn for hours.

Thinkin' Things (1993 *MacUser* Eddy award winner) Oranga Banga and The Fripples will inspire kids ages 4 to 8 develop creativity, critical thinking, memory, and problem-solving skills.

In **Bailey's Book House** (1993 *Parent's* Choice award winner), Bailey and his friends teach kids ages 2 to 6 reading fundamentals—letters, words, rhyming, and stories. Kids can print their own story books and greeting cards, too.

Millie's Math House (1992 *Parent's* Choice and Eddy award winner) includes activities that help kids ages 2 to 6 develop early math skills such as counting, shapes, and pattern recognition.

And Edmark's **Kid Desk** (1993 *Parent's* Choice award winner) is a fun, "kid-safe" desk accessory program that protects mom and dad's hard disk and file while letting kids launch their own programs. They'll learn how to use a calendar, calculator, talking clock, and message machine.

Lighthearted Learning, Serious Fun

Let Great Wave Software introduce your kids to the joys of reading the fun way with **ReadingMaze**. Children learn basic skills as they make their way through mazes by solving picture, letter, word, and sentence problems. There are more than 350 learning levels and 300 beginning vocabulary words. Features fantastic color graphics. Ages 3-8.

Daisy's Castle and **DaisyQuest** build early reading concepts. Both are highly interactive with actual spoken instructions. Using colorful graphics and fantasy characters, they teach sound awareness and word recognition. Daisy's Castle lets children identify objects as they tour a magnificent make-believe castle. Daisy Quest takes kids on a delightful fantasy adventure where they learn a variety of word recognition skills, from rhyming to vowel sounds. Ages 3-7. $35.

Plan Your Flower Garden the Intelligent Way

30 DAY MBG

Beautiful plant photos and easy-to-use menus let you create a realistic, year-round garden on your computer before spending a cent. Simply enter your geographic location and **FLOWERscape** recommends which plants are suitable for your garden. Select plants by color, size, scent, drought tolerance, and more. Actually view your garden's growth during any month! User-friendly and involves the entire family. Makes a wonderful gift! Requires a color monitor with 256 color driver, 1.5MB RAM, 9.5MB hard disk space, System 6.0.4 or later and high density floppy drive.

4764 FLOWERscape ..... $48.

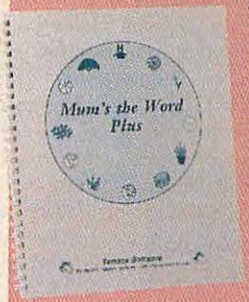
Design the Perfect Garden

30 DAY MBG

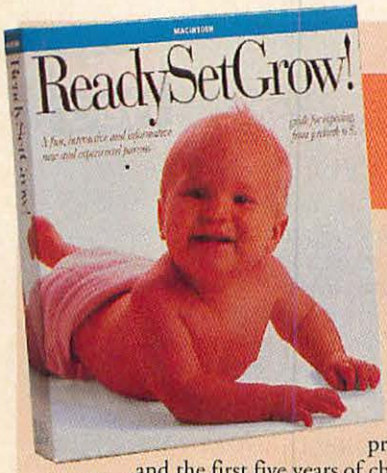
Simply click and drag the plants of your choice to create a balanced landscape!

Design breathtaking gardens with an integrated plant database, drawing program, and landscape symbol library. Terrace Software's **Mum's the Word Plus** helps you visualize different landscapes and plan healthy, long-lasting gardens. Its extendible database of perennials, trees, shrubs, grasses, herbs, ground covers, and annuals provides information on plant appearance, culture, uses, drought tolerance, and more. Quickly search for the best plants for your climate and interests—then drag and drop them into your design.

Mum's the Word Plus draws plants to scale, labels them, and maintains a planting list. You can select plants in the design itself by bloom season, water needs, or other criteria. Working at any scale, you can add detail and text; change colors, patterns, or size; or create your own plant symbols. Whether you're designing perennial borders, specialty gardens, or entire landscapes, Mum's the Word Plus will help you create your best garden ever!



9970 Mum's the Word Plus ..... $75.



Parents' Best Friend

Attention parents! This fun, interactive, and informative guide from Atlantis Software combines animation, illustrations, sound effects, and text to cover all facets of pregnancy, childbirth, and the first five years of childhood. Created by a successful physician and mother of four, **ReadySetGrow!** has won numerous awards. Simply click on an object in the on-screen nursery and you'll instantly access the program's various features. Watch the Biological Clock for a countdown to your due date. Answer the Family Profile questions for a "prediction" of your baby's looks and a list of potential risks for your pregnancy. There's also a Pregnancy Timetable; a section on Child Development; an Address Book with babysitter management and mailing label feature; a Calendar with milestone, to-do, and diary areas; Medical Records with electronic growth charts; and a Reference section covering pregnancy and childcare from A to Z. In fact, ReadySetGrow! does just about everything but change the diapers!

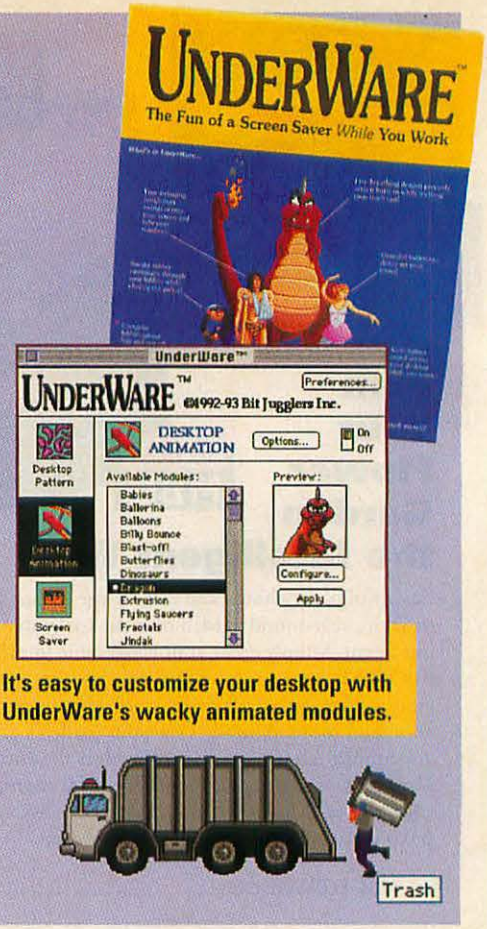
More Than a Screen Saver!

Now you can have the fun of a screen saver *while* you work! **UnderWare** from Bit Jugglers is the wacky and wild desktop animator, screen saver and background customizer that plays animation on your desktop, *under your windows and icons*. Conventional screen savers go away when you start working. UnderWare keeps right on doing its thing, while you do yours. Imagine watching dinosaurs walk through a prehistoric landscape while you write a report. Or watching rubber chickens flying in formation while you create a spreadsheet. UnderWare gives you more than 25 crazy animated modules that actually interact with your Mac desktop environment. Watch a fire-breathing dragon melt your trash can and see your folders get up and walk right off the screen! It's the most fun you can have while working!

The variety of images in UnderWare's Desktop Animation is astounding—from butterflies and ballerinas to flying saucers and forest landscapes. You can even customize your desktop with more than 75 professionally designed patterns with titles like marble tiles and cyberspace. On top of all that, UnderWare gives you password protection and it runs your *After Dark* modules. Watch your desktop come alive with UnderWare!

14676 UnderWare *(It's more than a screen saver!)*..... **$29.95**



30 DAY MBG

Screen Protection with Personality

Translates Languages Instantly

Key Into Spanish, French, German, and **Italian** bilingual dictionaries from Exceller. Perfect for students, business people, and anyone who communicates in two languages, Key Into Spanish (and its cousins) puts an important resource at your fingertips. Use these bilingual dictionaries with your favorite word processor and any other Mac applications. For example, with Key Into Spanish, choose either the English-Spanish or Spanish-English database. Type the word you're looking for and instantly an accurate translation pops right up on the screen. Copy and paste words to and from the dictionary. These dictionaries are the perfect choice for English speakers who want to look up Spanish, French, German, or Italian words and for speakers of those languages who want to look up English words. The Key Into dictionaries are published in conjunction with Random House, Inc., one of the most respected names in publishing.

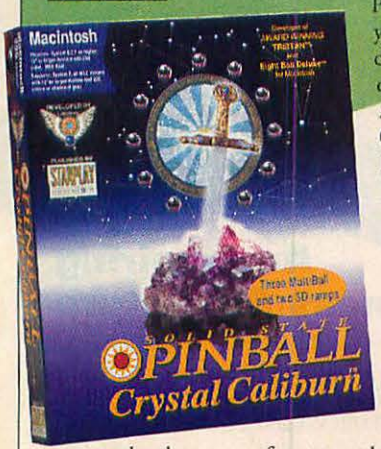
Be a Pinball Wizard!



Pinball excitement like you've never seen on a computer! "Arcade Game of the Year" says *Inside Mac Games*. With **Crystal Caliburn Pinball**, your quest for knighthood is full of surprises and great scoring challenges. All the advanced features of the best pinball machines including nudge and tilt, battle sounds, voices, 3D ramps, 3 multiball, flashing bumpers, auto-battle, contest feature, and more.

Accolade all twelve knights and go for the Holy Grail. This is "Everything Lit" for you pinball fanatics! Contest feature allows you to submit an authorized score to compete with anyone in the world. Requires 13" or larger monitor, 256 color, and 4MB RAM.

This is the third in the series of pinball games developed by LittleWing CO. LTD, each one better than the last. LittleWing is the developer of the award winning Tristan and Eight Ball Deluxe pinball games. StarPlay Productions is the new, exclusive publisher of all of LittleWing's software starting with Crystal Caliburn.

3675	Crystal Caliburn Pinball	$33.95

See You in Cyberspace!

ALL NEW

"One of the year's best games" (*Mac Computing* 4/93). **Spectre VR** from Velocity Development is the first cyberspace action game that lets you share your virtual world with up to seven other players on a LAN. Together, you travel in a futuristic hovercraft through a cyberworld battlefield filled with devious and resourceful enemies—intelligent acid pools, cloaked robots, flying hunter-killers, and gauntlets of killer orbiters. Defend yourself against the deadly onslaught with cyberblasts, electromagnetic pulse bursts, smart missiles, proximity mines, and scattershots.

Velocity's unique VRchitect lets you build cyber battlescapes from your own imagination.

Spectre VR challenges all your skills as it takes you through multi-layered worlds that test you with real-time artificial intelligence and breathtaking color graphics. And it challenges your imagination with VRchitect, Velocity's unique cyberspace editor that lets you create your own worlds. Spectre VR can also be played individually for a solo cyber adventure!

Battle the Forces of Evil!

You are the heroic Stormlord. Your mission: rescue imprisoned fairies from the evil Baron's castle. That's the challenge in **Deliverance**, an action-packed adventure fantasy. To guard his castle, the Baron has called upon the dark forces to release demons and dragons. Each level of his sinister castle presents new obstacles, as gargoyles come to life and mythical creatures attack from all directions determined to prevent you from succeeding in your quest. There's a spine-chilling surprise around every corner!

Now you can have arcade excitement without having to keep pumping in quarters! **Firefall Arcade** is animated arcade action at its best. Ferocious fireworms are descending on you—your only hope is to blast a path through 9 hair-raising tunnels. Features a dynamic music soundtrack and hyper-powered bonus rounds with dizzying 3D animated effects. Great fun from Inline Software.

Learn Piano the Fun, Fast Way

Learning piano was never this much fun! Designed by music educators, **The Miracle Piano Teaching System** from Software Toolworks combines artificial intelligence technology with a fun, progressive approach to musical instruction. From the minute you start using the Miracle, you're making music! It gently guides you through the basics with easy-to-follow instructions. It even has arcade-style games that turn lesson time into fun time. As you practice, the Miracle automatically monitors your progress; then it provides a personalized piano course just for you. You learn at your own pace, at your own level, whenever you want. That makes the Miracle perfect for everyone in the family! And you don't have to play solo; the Miracle Orchestra is ready to accompany you!

The Miracle isn't just a powerful tool for learning music. Its keyboard, rivaling the best MIDI consoles, features full-sized, pressure-sensitive keys and stereo speakers. You also get *Song Collections Vol. 1 & 2* with more than 80 song selections you can learn and play along with! Songs like: La Bamba, Hey Jude, In the Mood, Stairway to Heaven, Sunny, Penny Lane, Billie Jean, and Summer of '42.

5201 Miracle Piano Teaching System Hardware **$269.95**

Already own a MIDI-compatible keyboard? Turn it into an interactive teaching tool with the **Miracle Piano Teaching Software.** This program offers all the instructional features that make the Miracle system so effective—and so popular!

Edit Your Own Videos!

Want to turn two hours of videotape into 30 minutes of quality entertainment? It's easy with Gold Disk's **VideoDirector,** the program that turns your computer into a video editing system. Here's everything you need to link your Mac to a camcorder or VCR and create videos for home or business use. The VideoDirector interface looks just like a VCR control panel. Simply point and click to play, rewind, and fast forward. To edit, simply mark the beginning and ending points of a clip with a click of the mouse, put your clips in the order you'd like, and click on "Master Tape." VideoDirector does the rest, automatically creating a quality edited tape.

Put your video clips in any order, press *Make Tape,* and VideoDirector does the rest!

VideoDirector's Tape Library lets you store your favorite clips and retrieve them for use in future productions. And it includes a special "Smart Cable" interface to control most 8mm camcorders and remote-controlled VCRs right from your Mac. It's the best idea since home video!

11835 VideoDirector **$129.95**

YOU'VE WAITED LONG ENOUGH...

For an affordable CD-ROM Drive.

CHINON

Fastest Video Transfer Rate Macworld 7/93

FREE FWB CD-ROM ToolKit! & Living Books Sampler CD

Build your own Multimedia Bundle (Drive, CD's, Speakers) for as low as $360.

With this line-up of high quality drives, now's the time!

The **MDS Chinon 435** is the choice for homes, libraries, or anyone who wants an affordable model for database searches and exploring CD-ROM reference titles.

Our double-speed **MDS Chinon 535** and **MDS CD-ROM ZFP Toshiba XM3401** combine faster transfer rates and access times with 256K buffers to deliver data to your Mac up to twice as fast as single-speed drives for smoother QuickTime movies. They are also multi-session PhotoCD compatible. For QuickTime multimedia or large graphic files, you'll want at least a double-speed drive.

For CD-ROM professionals we offer the triple-speed **MDS CD-ROM NEC 3X**. Triple-speed drives transfer data fast enough for smooth QuickTime playback so video frames stay in sync with audio. The extra speed also comes in handy in everyday use.

MDS CD-ROM ZFP External Drives all come with everything you need so you don't have to buy an expensive interface kit. They feature an extra AC outlet, external fuse, two 50-pin connectors for easy daisy chaining, external termination and SCSI ID selection, and two RCA stereo jacks for connecting to a stereo amplifier. Plus, we include a 3' double-shielded 25-pin to 50-pin cable, disk caddy, and a FREE copy of FWB CD-ROM ToolKit which includes a driver that supports all popular CD drive formats, *CDT Remote* for playing audio CD's, and a high performance cache for speeding up CD access time.

CALL TO ORDER: 800-800-2222

We like to keep things simple.

1. We save you money.
From our everyday low prices to special bundles and upgrade offers, we help keep your Mac budget in line. And the entire Everything Overnight® shipping charge is just $3 TOTAL. No matter how many products you order.

2. We save you time.
No traffic jams or crowded parking lots. Call as late as 3:15 a.m. and your order will still go out Airborne for next-day delivery. And once you're a customer, we use Caller ID to access previous ordering information so you can place your order in record time! (We can also block this at your request).

3. We're open 7 days a week.
The only time we rest is from Sunday 5:00 p.m. until Monday 8:00 a.m. Call any other time to order. We even ship on weekends. Friday orders arrive Saturday and orders placed Saturday or until noon Sunday arrive Monday.*

4. Complete information.
Questions about compatibility or configurations? Find the answers toll-free 800-800-2222! You can also tune in our MacTV™ for product demos. Or download those same demos from our MacTV bulletin board. Call 800-800-6912 for more information on MacTV.

5. Total customer support.
Including money-back guarantees on many products and award-winning toll-free tech support on all of them.

6. Those little things that count.
Like packing paper from 100% recycled stock. And easy account set-up for corporate, government, and educational customers.

*Airborne's overnight service is available almost everywhere in the continental U.S.

Our hometown of Marlow, N.H. (pop. 600±).

Here are the terms that set the standards.

HOW WE DO IT.

- We accept VISA and MASTERCARD.
- No surcharge added to credit-card orders.
- We never charge your card until we ship.
- If we must ship a partial order, we never charge freight on the shipment(s) that complete the order (in the US).
- We don't charge sales tax in 49 out of 50 states. Sorry, Ohio residents, you need to add applicable tax.
- All US shipments are insured at no additional charge.
- APO/FPO orders are shipped 1st Class Mail.
- International orders: US $100 minimum, add 2% surcharge and $2.30 insurance. Manufacturer support and upgrade eligibility may be limited outside the USA. Some products are not available for export; call or fax for information.
- Upon receipt and approval, personal and company checks clear the same day for immediate shipment of your order.
- Corporate POs are accepted subject to approval. Please call for details about setting up a corporate account.
- The maximum COD order is $1000. Cash or cashier's check accepted. COD orders require an additional $4.50 charge.
- There's a 120-day-minimum limited warranty on all products. Longer warranties apply to many products as indicated after company names. Defective software is replaced immediately. Defective hardware is repaired or replaced at our discretion. All items offered for sale are, of course, subject to availability. Prices and promotions are subject to change without notice.
- We are not responsible for typographical errors.
- Our order lines are open continuously from 8:00 a.m. Monday until 5:00 p.m. Sunday Eastern Time. You can call our business offices at 603-446-7711 Monday through Friday 9:00 a.m. to 5:30 p.m. Eastern Time.

HOW YOU GET IT.

Continental US:

- The total freight charge on any non-COD order placed with MacConnection is only $3. Barring events beyond our control, all credit card orders (non-COD orders) phoned in weekdays by 3:15 a.m. Eastern Time will ship Airborne Express for delivery the next business day. Which means same-day delivery for orders placed between midnight and 3:15 a.m. Eastern Time. (Some orders may ship by UPS Ground for next-day delivery.) Saturday delivery available to many areas upon request at no additional charge. Order all day Saturday through noon on Sunday for Monday delivery. (Some areas require an additional day delivery.)

Hawaii, Alaska, Canada, Puerto Rico, and the U.S. Virgin Islands:

- Shipping to these areas may require additional time and charges. Please call 800-800-2222 for information.

All other areas:

- Please call 603-446-7711 or FAX 603-446-7791 for information.

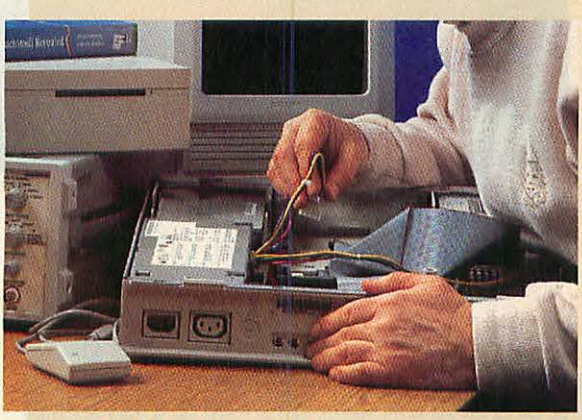
Plug-in Video Power

Let Lapis Technologies turn your Macintosh into a video presentation tool! Simply plug your Mac into Lapis' **L-TV Portable** by Focus Enhancements, then plug the L-TV Portable into a TV set or VCR. With L-TV, it's a snap to record screen images from your Mac onto videotape or use a TV monitor as a presentation screen. You can simultaneously view images on a television and your Mac screen. Or use a TV in place of your computer monitor.

L-TV LC offers the same capabilities for LC-series Macs. **L-TV ProLC** adds S-Video compatibility for enhanced display quality. Choose the **L-TV ProNuBus** for NuBus Macs. L-TV is perfect for educators, sales and software trainers, and video and multimedia producers!

14947 L-TV Portable $349.95
14946 L-TV LC 299.95
14945 L-TV ProLC $369.95
14948 L-TV ProNuBus (7") 449.95

We're Your Repair Connection, Too!



We are authorized to perform warranty repairs on the following:

- Epson printers
- Canon printers
- Okidata printers
- Iomega/Bernoulli removable drives
- MDS (SyQuest) removable drives
- MDS hard drives and CD-ROM drives
- Compaq laptop and desktop computers *(tell your PC friends!)*

Consider the advantages offered by the MacConnection Service Center:

- Call us toll-free to arrange for repairs.
- Fast turnaround—repairs normally within 48 hours.
- We are factory-authorized, so your warranty is protected.
- We have a large stock of OEM parts.
- Overnight shipping is available.

The MacConnection Service Center

Is your dot matrix playing dead? Your laser gone lame? Your hard drive gone soft? Your Bernoulli on the blink? Don't panic—the MacConnection Service Center is here to help.

We are an Authorized Repair Facility for many of the hardware items we sell (see accompanying list at left). If you bought it from MacConnection, and you have a problem within the warranty period, we're ready, willing, and able to provide the very best factory-authorized service together with the fastest response!

Our Service Center technicians are factory trained, use the latest diagnostic equipment, and have a vast selection of parts on-site. And all repairs are backed up with a 120-day warranty. Plus, you'll enjoy the same kind of responsive, friendly service for which MacConnection is famous.

What about non-warranty repairs?

You didn't buy your hardware from MacConnection? And your warranty is up? The MacConnection Service Center is still the right choice. Our experienced Repair Technicians can help get you up and running at a very competitive cost. In fact, our hourly repair rate is well below the industry average.

Best of all, we give you the same "front burner" service we offer warranty customers. Most repairs are complete and on their way back to you within 48 hours! We service a wide range of hardware items...give us a call to see if we can help you.

When your hardware fails, give it to someone who won't fail you—the MacConnection Service Center. Keep our toll-free number handy!

Call the MacConnection Service Center at 1-800-800-0015.
Or send us a fax at 603-446-7982
Hours: Weekdays, 9 a.m. to 5:30 p.m. EST

RasterOps
THE ART & SCIENCE OF COLOR

SCREEN GEMS!

TRUE COLOR. TRUE SPEED.

Introducing Sweet 16!

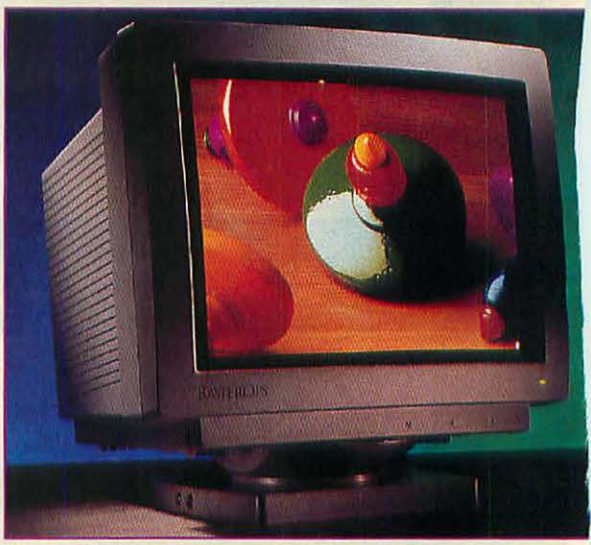
"The best image quality of all the monitors we tested was that of the **RasterOps Sweet 16**. RasterOps' tech support and the monitor's plug and play convenience for Macintosh users make the Sweet 16 an excellent choice" (MacUser 2/94).

8392	Sweet 16 Color Monitor	$989.95
3048	2020C Monitor *(RasterOps' best-selling monitor)*	1699.
11575	2075RO Monitor	2449.

PaintBoard Lightning

Build a perfectly matched display system with a RasterOps color NuBus display card: the affordable new 24-bit **PaintBoard Lightning** with proprietary hardware and software-based acceleration for increased productivity, or the super-fast 24-bit QuickTime-accelerated **PaintBoard Turbo XL**. The new **PaintBoard 8Li** offers the fastest 8-bit performance available. And **PaintBoard Professional** is the fastest RasterOps board, offering third-generation QuickDraw and a 9-Bit DAC back (digital-to-analog conversion) for a crisper image and resolution up to 1152 x 870.

14750	PaintBoard Lightning 24-Bit Display Card	$849.95
12909	PaintBoard Turbo XL 24-Bit Display Card	1199.
12908	PaintBoard 8LI 8-Bit Display Card	349.
15777	PaintBoard Professional	1849.



"The best image quality of all the monitors we tested."

★★★★½ (MacUser, 2/94)

FULL-SCREEN DIGITAL VIDEO FOR UNDER $2000!

Your Credit Card isn't charged 'til we ship!

Now, RasterOps affordably turns your Macintosh and 13" display into a video editing workstation with full-size, 30 frame/second QuickTime movies for multimedia production. A 1993 MacUser Eddy Finalist, **MoviePak Presenter** matches up a 24STV Video/Display Card with a MoviePak daughtercard to deliver 24-bit graphics, live video display and capture, and real-time JPEG compression for video post-production, interactive multimedia, and a host of other applications. Also available separately, the **24STV** includes a frame-grabbing application that can capture a single frame or a sequence of frames.

14749	MoviePak Presenter *(includes coupon for free VideoShop)*	$1499.
15775	24STV *(7")*	799.95
3178	MoviePak2 Pro Suite NTSC *(with Adobe Premiere 3.0)*	3499.

THE DUOMATES ARE HERE!

DuoMate gives your Duo workstation capabilities. You'll be able to attach almost any kind of Mac connection (except us, of course) to its wide range of ports. The **DuoMate 16sc** supports even standard SCSI and a variety of bit depths up to 16-bit-per-pixel for more colors on external displays. DuoMate is the only dock to provide full support for color monitors up to 21". And only DuoMate provides a safe-docking ledge, eliminating docking fall-offs and positioning your keyboard for the best wrist angle. 1993 Macworld Expo Show Pick.

7352	DuoMate 8 Docking Station	$359.95
7353	DuoMate 16sc Docking Station with standard SCSI port	549.95

60 DAY MBG

Create Better Code in Less Time

The object-oriented approach of **Symantec C++** for Macintosh's development environment lets you develop code that is extensible, reliable, and maintainable. It includes *THINK C* 6.0. Symantec C++ features object-oriented development tools within a completely integrated environment. The fast C++ compiler eliminates frustrating delays. It has a global optimizer for superior code generation, and supports processors from the 68000 on up (requires 4 - 8MB RAM). The incremental linker, THINK Class Library, integrated graphical class browser, and automatic project manager give Symantec C++ one of the fastest turnaround times.

Symantec C++ supports multiple editors and translators. The built-in SourceServer supports team programming by providing a source-code control system. The smart linker removes unreferenced code to reduce program size. Collapsible, named, and movable segments in the project window make it easy to work with large projects.

11727 Symantec C++ 6.0 for Mac ..... **$339.**

Masterful Programming Tools

Object Master from ACI US is an integrated programming environment that lets you manage, edit, and navigate through source code faster and easier. Its powerful editor windows help you reduce development time.

15403 Object Master for THINK C/C++ **$194.95**
15405 Object Master Universal **289.95**

30 DAY MBG

Reach Inside Any Mac File!

This new version of **CanOpener** from Abbott Systems is a true universal file opener that lets you peek inside any Mac file, then copy any text or pictures in it. CanOpener even lets you recover text from damaged files! "A must-have utility" according to *MacUser* (4/92).

5236 CanOpener 2.5 ..... **$59.**

Speed Up Your Hard Drive

"The best all-around optimizer!" says *Macworld* (3/94) of **DiskExpress II** from Alsoft. Patented technology keeps your hard disk running at its absolute fastest. Does more than other optimizers. No floppy boot disk required, set it and forget it convenience, disk error detection, and more. 30 day MBG.

Manage Files Faster

Tired of clicking on folder after folder to find the file you need? **PopupFolder** from Inline Software lets you easily navigate through your hard disk by hierarchically displaying the contents of all folders and volumes of the Finder. PopupFolder also works within your applications for instant file access. To save a file, simply drag it to the appropriate folder! And if you have folders or folder aliases in the Apple menu, PopupFolder lets you instantly view and access their subfolders—up to five levels deep!

Redux Deluxe 2.5 is the new version of the popular Mac backup program. It offers new time-saving features, including the ability to create a "QuickBackup" document which, when opened, begins a predetermined backup session. Redux Deluxe comes bundled with *StuffIt* file compression utility from Aladdin Systems.

Keep Your Mac Healthy...

Apple Personal Diagnostics helps keep your Macintosh trouble-free by checking and reporting on the well-being of your computer's logic board, disk drives, display and system software. It even lets you check for damaged system files and repairs minor hard disk directory damage. Customized diagnostic reports provide information on your system configuration, such as system extension files and duplicate System folders. The Automated Diagnostics feature constantly monitors your computer and alerts you before problems arise. Benchmark tests compare your system's performance against Apple benchmarks for your model. If there is a problem, the comprehensive user guide is filled with easy-to-follow troubleshooting tips. Use the diagnostic software developed by the developers of the Mac!

1319 Apple Personal Diagnostics ..... **$99.**

...and Use it with PCs!

Do you use your PowerBook in conjunction with DOS computers? **PowerBook/DOS Companion** gives you four software products to ease the transition. Use *Macintosh PC Exchange* to work with 3.5-inch MS-DOS or Windows floppies as if they were Mac disks. *MacLinkPlus/PC Connect* lets you swap and convert files between platforms. Rely on *PowerPrint* and its included cable when you need to print from your Mac to DOS printers. Use the *MacVGA* adapter to link your PowerBook to a wide array of VGA and SVGA monitors.

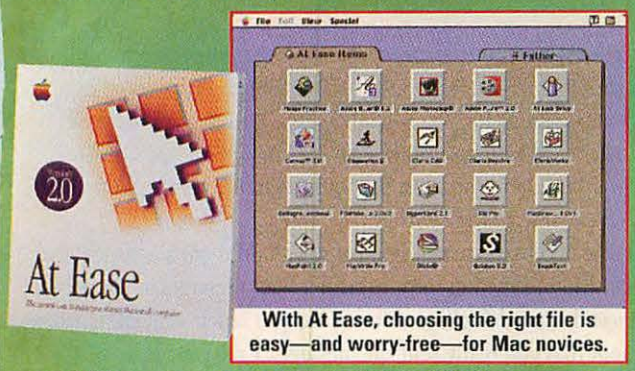
Apple Tools to Do All That You Can Do.

Put Your Mind At Ease.



With At Ease, choosing the right file is easy—and worry-free—for Mac novices.

Let children or novices use your Mac with the program that gets them up and running in record time AND makes sure they leave your computer exactly the way they found it. **At Ease** is a super-friendly front-end extension to System 7 that offers single-mouseclick access to any application or document with large, colorful buttons and presents a much simplified control panel. Users can get at all the apps and documents they should be using, but can't get to—or accidentally damage—files they shouldn't. Password protection for the Finder, System Folder, and Control Panel, too.

1206 At Ease **$45.95**

Keep in Sync and Improve PowerBook Productivity.

If you use both a PowerBook and a desktop Mac, you know how hard it can be to remember which one has the most recent version of your work. With the new **PowerBook File Assistant**, any files you select will be synchronized automatically on your PowerBook and desktop Mac, so the most up-to-date version is always available. All you do is set up a link between two files or folders. PowerBook Assistant does the rest. PowerBook File Assistant also includes a toolbox of extra utilities to increase battery life and productivity.

12883 PowerBook File Assistant **$59.95**

Show Some Real Character.

Integrate Japanese and Chinese characters into virtually any document!

If you're a native speaker, do business in Japan or China, study Japanese or Chinese, or simply need to create, edit, or print documents with those characters, you'll find the operating-system-level support and unified platform of Apple's WorldScript technology indispensable. Created for multilingual documents, the **Chinese** and **Japanese Language Kits** let you mix Chinese or Japanese characters with other languages. Create applications for worldwide markets! Bilingual documentation, too.

9928 Chinese Language Kit **$189.95**
12654 Japanese Language Kit **189.95**

Leap Platforms in a single bound!

Macintosh PC Exchange breaks down the barriers between Macs and PCs running DOS or Windows. Just put a PC disk into your SuperDrive (or compatible 3.5" or 5.25" floppy) and Macintosh PC Exchange does the rest. DOS/Windows files appear on screen as folders and documents–ready for file management or to import into your Mac apps.

7073 Macintosh PC Exchange **$59.95**

APPLE EMPOWERS YOUR SYSTEM.

With the Power of System 7 and More.

Join the big leagues of power computing with **System 7 Pro**. It starts with everything found in System 7.1 (see below) and adds on a powerful trio of extensions: PowerTalk, AppleScript, and QuickTime. They'll let you perform at a higher level and take advantage of the many applications that incorporate their automating, communicating, and animating prowess.

AppleScript is "...an excellent way to create custom systems that integrate multiple separate applications" (*MacUser* 12/93). It lets you automate routine tasks, compile scripts, and create custom applications for yourself and your colleagues and execute them with the click of a button. Most importantly AppleScript will let you use the scripting automation power built in to the latest versions of most power applications including *Excel*, *QuarkXPress*, and *StuffIt Deluxe*.

PowerTalk lets you send/receive voice mail and faxes (with third-party software) and create personal catalogs with information cards to send instant messages to the people you collaborate with most. Included *DigiSign* software lets you attach a digital signature to prove to the recipient that you really sent the message. Take your PowerTalk personal catalog and DigiSign on the road and read/reply to mail wherever you are. PowerTalk will automatically send your messages whenever you re-connect to a network.

QuickTime combines video, sound, and animation to bring your letters, reports, spreadsheets, and presentations to life. Play QuickTime movies just like videos–with play, pause, fast-forward, and rewind–even advance frame by frame.

13047	System 7 Pro	$99.95

APPLE EMPOWERS YOU.

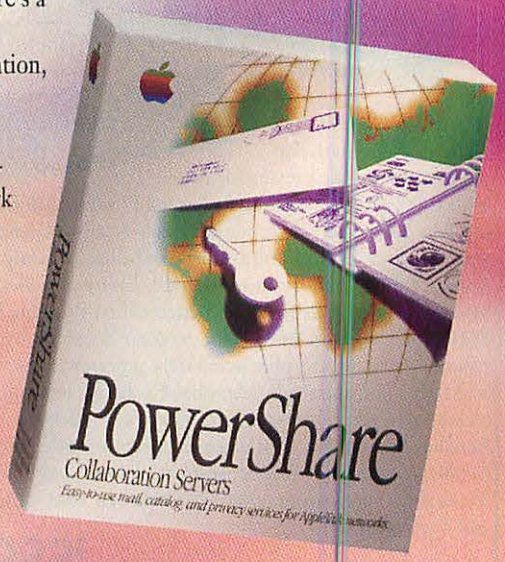
With the Power to Collaborate with Others.

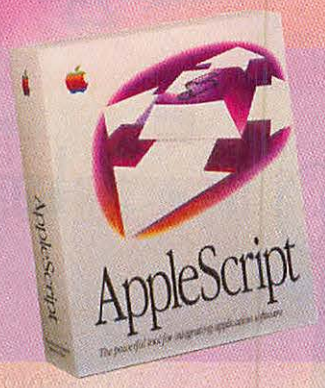
Communicating information is the whole idea behind networking—and now there's a new way to get the most from your AppleTalk network. Apple PowerShare Collaboration Servers provide innovative new E-mail, catalog, network authentication, and privacy services for PowerTalk users on an AppleTalk network.

Use PowerShare to consolidate administration of shared catalog information. Even your most sensitive information stays secure because PowerShare automatically authenticates all PowerTalk users on the network and encrypts their network traffic for maximum privacy. By acting as a store-and-forward system for PowerTalk messages, PowerShare eliminates the need for both sender and receiver to be online simultaneously—so you can communicate when it's convenient and not worry about someone else getting the message. Take advantage of a wide range of collaborative applications with PowerShare, such as sophisticated scheduling, project management, and business forms routing.

The fact is, PowerShare is one of the best ways yet to get the most efficiency and productivity out of System 7 Pro!

15844 PowerShare $769





The Power to Customize Your Mac.

AppleScript allows you to integrate the functionality of third-party applications to better meet your needs, streamline your work, or develop custom solutions. The programming power of AppleScript will radically change the way you do business on the Macintosh. The included FaceSpan interface builder allows you to create custom applications based entirely on AppleScript.

14538 AppleScript $144.95

The Power to Create Your Own Solutions.

Looking to create your own custom software solutions? **HyperCard 2.2** lets you develop powerful stand-alone business solutions, education courseware, interactive multimedia presentations, and more—all with incredible ease.

HyperCard has powerful development features, yet it works like a deck of cards, making it easy to create customized applications. It has ready-made buttons, fields, templates, scripts, tools and example stacks that get you started in no time.

You can even add color! Import and resize color PICT images, and apply 24-bit color to buttons, fields, backgrounds, and cards using the included Color Tools.

Using HyperCard's support for AppleScript, you can automate repetitive tasks, launch, control and exchange data with off-the-shelf scriptable applications. With HyperCard, you can easily create double clickable applications—custom solutions you can distribute without royalty fees! Supports WorldScript and QuickTime.

Create powerful applications quickly with HyperCard! Includes ADDmotion II, Color Multimedia solution for HyperCard.

Endless Storage. Best Value.

WHEN the merely enormous is still too small, try an infinite amount of storage capacity. **MDS Removable Drives** never run out of space, are designed specifically for use with Macs, and feature the acclaimed SyQuest drive mechanism. SyQuest removable drives offer the added benefit of data security because the cartridge can be removed, taken with you, or locked away.

MDS Removable Drives feature a 20ms average access time, 60,000 hours MTBF, push-button SCSI ID selector, high-capacity cooling fan, two switched-power outlets and dual 50-pin SCSI connectors, 25-50 pin SCSI cable, and an external terminator for easy daisy chaining. ("Daisy chain" cables sold separately.)

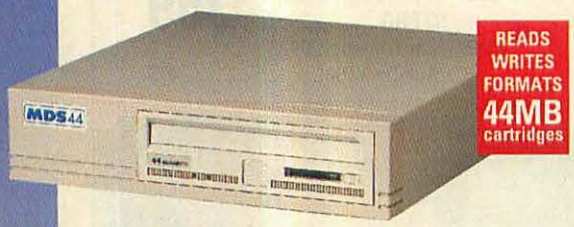
They come with a two-year limited warranty and our toll-free technical support. Each unit includes FWB's Hard Disk ToolKit Personal Edition, and for a limited time, DayMaker Organizer 3.0 from Pastel Development.

$79.95 VALUE FREE

DayMaker 3.0
is the complete solution for time and contact management. It includes calendars, daily appointment lists, alarms, to-dos, and notes. "A great choice" (Macworld 5/93)

$49 VALUE FREE

Hard Disk ToolKit PE
is a SCSI utility and hard-disk formatting program that lets you custom format and partition your drive for maximum speed.



For dealing with moderate-sized files, the **44 SyQuest Drive** is an incredibly low-priced solution.

Need a drive?

Add Storage And Performance.

Set yourself up with an **MDS External Hard Disk** and keep acres of space right at your fingertips. With MDS Drives there are no jumpers to jump or DIP switches to set. Two SCSI ports and an external terminator make daisy-chaining a snap (Daisy chain cable sold separately). SCSI ID selection is easy with the simple push button on the back.

Hard Disk ToolKit Personal Edition comes free with every MDS Drive. This SCSI utility and hard-disk formatting program make it easy to custom format your drive.

15923	1MB Cache *(512K)*	549.95

TURBO 040 PROCESSOR UPGRADES

"The **Turbo 040** is the best accelerator family for the Mac SE/30 and the Mac II family" (*MacUser* 3/94). It can increase performance from 200-600% and is guaranteed compatible with all standard Quadra-compatible software and Mac II-compatible hardware–even at full speed. Just plug it in! **Turbo 040i** provides accelerator power without the FPU for users who don't need complex math acceleration. The **FastCache Turbo** 128K SRAM cache makes the Turbo 040 up to 70% faster.

1312	Turbo 040i 20 MHz	$599.95

GIVE YOUR MAC THE

Free video & installation booklet!

Today's full-featured applications can leave your Mac ravenous for more memory. Even if you don't get the dreaded "Insufficient Memory" dialog box, deep down inside your computer wants and needs more megs. With increased memory, your Mac can:

Handle larger, more powerful applications like *QuarkXPress*, *Excel*, and *Photoshop*. Face it: Programs aren't getting smaller—they're getting larger!

Upgrade to the latest operating systems. To get the most from System 7, you need more than the required 2 megabytes. And System 7 Pro requires a whopping 5 megs just to get started!

Run multiple applications. The more memory you have, the more applications you can have open at the same time, the more efficiently you can work!

Enter the world of multimedia. CD-ROM games, encyclopedias, and image libraries are incredibly exciting—but can use an incredible amount of memory!

The simple fact is, memory is like legal tender—you can't have too much. Adding memory to your Mac is one of the best (and least expensive) performance investments you can make. And it's so easy!

MEMORY 101.

You've never installed SIMMs before? No problem—here's everything you need to know to master your memory upgrade:

What's a SIMM, anyway? It stands for *Single In-line Memory Module*. It's a small board containing memory chips that plugs into a memory expansion slot on your Mac's system board.

Macintosh Model (Standard Memory)	To Get To:	Purchase these SIMMs:	(Qty.) & Item No.	Total Price of Memory	Other things required:

MEMORY IT CRAVES!

How much memory do I need? That depends on how you use your Mac. Do you run several applications at once? Do you run memory intensive programs? Remember that minimum memory requirements are just that—a minimum. For best performance, add together the memory required for *all* your applications, then double that figure! Need help deciding? Talk to one of our sales support representatives.

Does the speed matter? Yes. Memory is speed-rated in *nanoseconds* (ns). It's okay to upgrade to faster memory, but you cannot add memory that's slower than the required speed. All SIMMs from MacConnection are rated at the appropriate speed for your model Mac.

Will I need special tools? Opening your computer case to add SIMMs is a fairly routine operation, as long as you use reasonable caution. We think using a SIMM remover is a good idea—that's why we include one FREE. The MacConnection Tool Kit includes a special tool and case opener. It's just $6.95 and, in some cases, you'll need it to do the job (see SIMM chart).

Which upgrade do I need? Consult the SIMM chart on this page. Confused? Give MacConnection a call.—we can help you choose the right SIMM upgrade for your Mac, and we can answer any questions you have regarding installation.

Adding memory to your system is a breeze—and you'll notice the difference in performance immediately. Get the most from your Mac with a memory upgrade from MacConnection!

FREE SIMM installer with appropriate SIMMs!

PowerBook & VideoRAM

Give your PowerBook more memory power!

You've gotta love your PowerBook. It frees you from so many constraints, letting you work wherever and whenever you want to. And yet, it could be better—if only it had the memory. Many of the PowerBook's greatest resources—including AppleTalk Remote Access (ARA)—demand memory, and lots of it.

The answer? **PowerBook Memory Modules** from MacConnection. We have the right memory upgrades for your PowerBook model. It's the affordable way to get the most from your PowerBook. We recommend that you have your Memory Modules installed by an authorized Apple dealer.

Add some inexpensive power to your PowerBook with a Memory Upgrade from MacConnection.

Not sure what you need? Give us a call and we'll help you decide!

Improve your Mac's graphics with VRAM!

Some of today's most exciting applications—from multimedia to image processing—deliver incredible graphics. To get their full impact, you'll need plenty of VRAM (Video Random Access Memory). And MacConnection can help.

Adding more Video Memory is a breeze with a MacConnection **VRAM Upgrade**. They're inexpensive, easy to install, and you'll see the performance difference as soon as you run any graphics-intensive application!

KENSINGTON

Keeps You On A Roll!

MORE AWARDS THAN ANY OTHER TRACKBALL OR MOUSE!

Rev your engines! The **Turbo Mouse** 4.0 trackball offers superior cursor control and the latest advances in trackball technology. Kensington's "Brilliant Cursor" technology speeds up operations by letting you jump to predefined hot spots on your screen.

The Turbo Mouse's 4½" x 5¾" footprint consumes far less of your desk than a moveable mouse. And the large ball guarantees better control and smoother movement. Grimy fingers? Just remove the ball and clean.

The programmable buttons are ergonomically positioned with a symmetrical placement that will please both lefties and righties. Its two ADB ports let you chain other ADB devices. You can even use your Turbo Mouse trackball and standard Apple Mouse (or tablet or pen) at the same time.

Other features include Enhanced Mouse Button commands, acceleration control, and application sets. Five-year warranty and new manufacturer's satisfaction guarantee.

And dress up your desk with different color Custom Trackballs.

NOTEBOOK TRAVELER CARRYING CASES

Take no chances. Elegant and durable, built to last Kensington cases feature internal PVC supports and a wire frame to maintain bag shape and protect your PowerBook from puncture damage. They also contain dense closed-cell padding for greater shock absorbency; a special foam-wrapped handle for added comfort; and an adjustable removable shoulder strap. Cases are water resistant and smooth, so they won't snag your clothing. The **NoteBook Traveler Executive** has a 3-compartment storage system, including a padded computer compartment, a second padded section with elastic straps, a third accordion file storage area, numerous utility pockets and two big outer pockets. The **NoteBook Traveler Deluxe** provides four inner pockets and one expandable outer pocket. **NoteBook Traveler Compact** features a convenient work-out-of-case design plus an internal expandable pocket. The affordable **NoteBook Traveler Tote** is perfect for just taking your computer and a few supplies with you. Lifetime warranty.

Pen Computing within Reach

Desktop pen computing used to be reserved for high-level gurus with a palette full of cash. Not any more! The new **MacHandwriter** from Communication Intelligence Corp. puts sophisticated pen computing within easy reach. An excellent keyboard complement, MacHandwriter allows you to create and edit documents and draw graphics the way that's most natural—with a pen! Move quickly and easily through all sorts of documents, executing your commands with a pen instead of a mouse, handwriting directly into documents.

Features a comfortable cordless pen and an ultra-thin 9.75" x 11" tablet that weighs about a pound. The key to its effectiveness is CIC's award-winning *Handwriter Recognition System* software, plus the PenMAC System 7 Extensions. Fully compatible with all Mac programs. There's no reason to put off discovering the ease of pen computing! "Runs circles around Newton, Zoomer, or EO" *Chicago Tribune* 1/2/94.

A Smarter Way to do Labels

Print labels the smart way with the **Smart Label Printer Plus** for Apple Macintosh. It's easy to print individual labels from within whatever application you happen to be working. You can use any System font to create eye-catching labels for envelopes, file folders, diskettes, Rolodex cards, cassette and video tapes, telephone lists, and more.

If you want multiple label size capacity, photo-realistic graphics, high-quality printing, try Seiko Instruments' **Smart Label Printer Pro**. It gives you the look you demand.

Print Anything, Anywhere, Anyhow, on Any Budget.

HP LASERJET: Professional quality for important printing.
The **HP LaserJet 4M** printer gives you superior print quality. A new print engine designed specifically for 600 x 600-dpi resolution incorporates HP's exclusive Resolution Enhancement technology and microfine toner to produce stunningly crisp output. The RISC-based processor, 6MB of memory standard *(upgradable to 26MB)*, integrated Adobe PostScript Level 2 software, as well as HP PCL 5 printer language make this printer very productive. Three active I/O ports with auto-sensing and auto-switching make it easy for multiple Mac users to share the printer. LocalTalk, serial, and parallel ports are standard, and optional HP JetDirect cards make it a breeze to connect to virtually any type of network.

HP DESKWRITER: In Living Color or Black & White
Every business printer can do black. But the **HP DeskWriter C** and the **HP DeskWriter 560C** let you print in black *and* color. The DeskWriter C has one slot—you just switch from the **Black Cartridge** to the 3-color **Color Ink Cartridge** for those special documents. The DeskWriter 560C has two slots, so the two cartridges can work together seamlessly for integrated black and color printing that's simple and convenient. You get full-page, full-color output on paper or transparencies in 3-7 minutes.

Just need black? The **HP B&W DeskWriter 520** personal printer is small enough for any desktop and inexpensive enough for any budget. No more running to the network printer to retrieve your confidential documents!

Both new DeskWriters deliver 600 x 300 dpi resolution for a laser-quality look and come with soft fonts, fully scalable to 250 points.

Labels, Without the Wait

Now with enhanced 2.0 software and new label choices! The easiest and fastest label printers for the Mac are now even better. New version 2.0 software includes built-in print spooling for list printing and a simpler interface. Plus CoStar has added more label sizes, including color coded file folder labels, preprinted and custom sizes. And you can share the **LabelWriter** in a work group with its optional **AppleTalk Network Interface**.

The LabelWriters are small thermal printers that connect to one of your serial ports and print labels without interfering with your main printer. Print quality is excellent and you can use all your fonts and graphics.

Choose **LabelWriter II** for standard address and file folder labels. For more flexibility, **LabelWriter II Plus** can also handle shipping, disk, and video cassette labels. Additional labels are available.

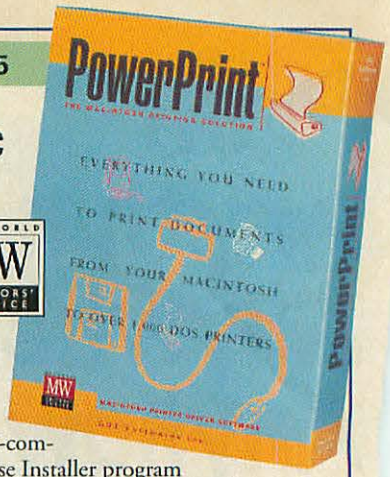
NEW VERSION 2.5

Print on PC Printers



MACWORLD MW EDITORS' CHOICE

Print to just about any printer you choose with **PowerPrint** from GDT Softworks. This software-and-cable combo lets you print on more than 1000 laser, inkjet, and dot-matrix PC-compatible printers. Easy-to-use Installer program lets you select different printers just by using the Chooser. LaserWriter-like features include a built-in spooler, reduction and enlargement, and even custom paper sizes. A recent recipient of *Macworld*'s Editors' Choice Award and the *MacUser* 100 Award, PowerPrint even supports printers with multiple trays, wide carriages, and multipart form capability. And PowerBook users will love the smart cable included; finally, you can print on the go—no matter what type of printer is available! Why should your Macintosh be chained to just one printer? Start printing on any printer you choose with PowerPrint.

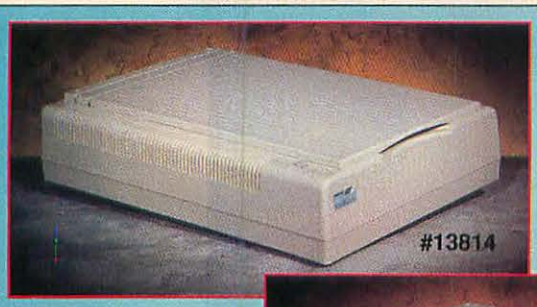
Picture-Perfect Scanning for Every Need



#13814

For fast, high-resolution scanning, choose the **ScanMaker IISP** single-pass, color flatbed scanner from Microtek. It delivers resolution up to 1200 dpi through software interpolation in 24-bit color, 8-bit grayscale, 4-bit OCR, or 1-bit line-art images. It features Dynamic Color Rendition (DCR), the most accurate color-correction system for desktop scanners. Includes *Adobe Photoshop LE*. The **ScanMaker II** color flatbed scanner offers 24-bit color, 8-bit grayscale, and 1-bit line-art scanning at 1200 dpi, through software interpolation, plus *Adobe Photoshop LE*. The **ScanMaker IIXE** offers the same, plus *Adobe Photoshop* 2.5.

ScanMaker IIG is ideal for low-cost grayscale and line-art scanning, with resolution up to 1200 dpi through software interpolation and 1-, 4-, and 8-bit modes. Includes Caere's *OmniScan OCR* software. Scanning 35mm slides or negatives? The compact **ScanMaker 35T** captures color or grayscale images at optical resolutions of 1828 x 1828 dpi. Includes *Adobe Photoshop LE*.

Easy, Inexpensive Ethernet

Give yourself the power of full 10Mbps Ethernet networking, together with plug-in installation convenience. Tut Systems' **Silver Streak Ethernet** products make powerful networking easy and affordable for small office environments. Connecting up to 30 devices over 600 feet is as easy as plugging in a phone cord! Within minutes, you can be sharing files, printers, modems, and other network resources. Silver Streak is the ideal answer for those setting up a small network, extending an existing one, or for those moving from LocalTalk up to Ethernet. In many cases, you can upgrade merely by replacing your existing connectors with Silver Streak Connectors!

Because Silver Streak's pioneering technology operates at the physical layer of the network, it works with all of today's leading software packages, including *Novell Netware*, *LANtastic*, *MS Windows for Workgroups*, and *EtherTalk*.

Build your network in a flash with Silver Streak Ethernet Connectors!

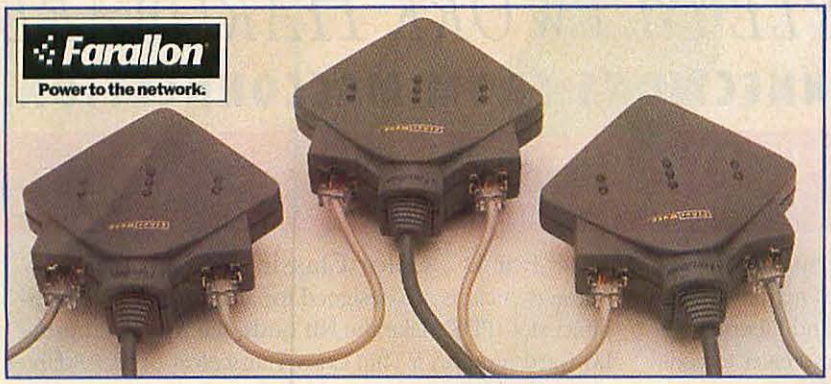
HARDWARE PRODUCT OF THE YEAR!



The World's First Daisy-Chainable 10BASE-T Ethernet Solution.

Winner of the 1993 *MacUser* Editors' Choice Award.

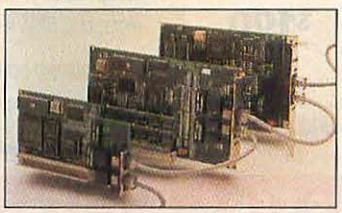
Farallon's **EtherWave** technology delivers of 10BASE-T Ethernet performance but is as easy to set up and use as LocalTalk. Now you can grow your network easily without having to install additional wiring. Here's how:

- The daisy-chainable design lets users run on 10BASE-T Ethernet over unshielded twisted-pair wiring without a hub.
- EtherWave also lets you daisy-chain up to 7 devices off each 10BASE-T hub port.
- The auto-crossover feature selects the appropriate configuration for any 10BASE-T connection automatically.

EtherWave Cards make any Mac or PC daisy-chainable. **EtherWave Adapters** do the same for slotless Mac, portables, or printers.

EtherWave Transceivers are used to network any Mac, PC, workstation, or printer with Ethernet already installed. All have two self-terminating RJ-45 ports, are 100% 10BASE-T compatible, and work with any network software like *Timbuktu* (see below), *Netware, LANtastic,* and *MS Windows for Workgroups.*

We also carry Farallon's complete line of standard Ethernet connectors, hubs, and controllers.



With daisy-chainable EtherWave Cards and Adapters, you can quickly Ethernet-enable any Mac, PowerBook, PC, or printer.

For existing Ethernet-ready devices:

11476 EtherWave AUI Transceiver..... **$109.**
11499 EtherWave AAUI Transceiver..... **109.**

GENUINE APPLE NETWORK HARDWARE

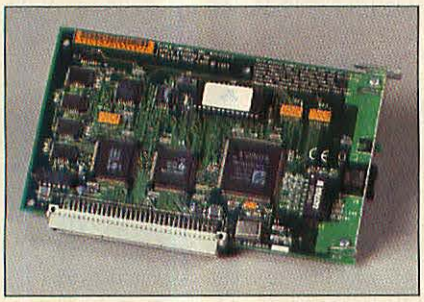
GET YOUR MAC CONNECTIONS FROM MACCONNECTION.

APPLE ETHERNET CARDS

Make your Mac Ethernet ready.

For Mac II's and Quadras.*

The Apple Ethernet NB Card is a NuBus master network card with its own 68000 microprocessor and Ethernet port. Use it with an Apple Thin Coax Transceiver to connect to thin coax networks or an Apple Ethernet AUI Adapter to connect to thick coax cabling or other media (like fiber-optic). See transceivers/adaptors below.



No transceiver or adapter is required for the Apple Ethernet NB Twisted-Pair Card. This bus master interface card has its own built-in 10BASE-T network port so you can cable directly to any 10BASE-T compatible hub. Both cards come with all installation software and feature the highest available network buffer memory.

Or put your Nubus Mac on a token-ring network with the Apple Token Ring 4/16 NB Card.

15470 Apple Ethernet NB Card *(requires transceiver)* ..... $189.
15464 Apple Ethernet NB Twisted-Pair Card ..... 179.
15459 Apple Token Ring 4/16 NB Card ..... 699.

**NuBus adapters required for Mac IIsi and Quadra 610.*

For LC, Color Classic, Quadra 605.

These two cards are designed for Macs with a processor-direct slot (PDS). Like the NB cards, the Apple Ethernet LC Card requires a Thin Coax Transceiver or AUI Adapter to connect to your media, while the Apple Ethernet LC Twisted-Pair Card can connect directly via twisted-pair wiring to a compatible 10BASE-T hub. Includes multilingual software.

15460 Apple Ethernet LC Card *(requires transceiver)* ..... $89.
15463 Apple Ethernet LC Twisted-Pair Card ..... 99.

WHY ETHERNET?

Trying to explain to the bean counters why you're making the move from LocalTalk to Ethernet? Here's the quick sell:

- **SPEED!!!!:** 10MB/sec versus LocalTalk's 230.4K/sec for effective speeds up to 5x faster. If you're sharing or printing large graphics or database files you'll see immediate improvements in productivity.
- **Versatility:** supports concurrent processing of a variety of network protocols including AppleTalk, TCP/IP, Mac IPX, and DECnet.
- **Adaptability:** Easily integrates into mixed-networks, i.e., with Macs, PCs, UNIX workstations, DEC minis etc.

And for optimum performance don't mix your electronic apples and oranges; get genuine Apple networking cards, transceivers, and connectors.

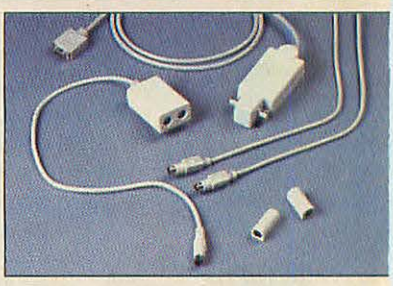
APPLE ETHERNET ADAPTERS & LOCALTALK CONNECTORS

Everything you need to wire your network.

Apple Transceivers and Adapters are used to connect your Ethernet-ready Mac to the specific type of cabling used in your network.

15452 Apple Ethernet AUI Adapter *(for connecting to external transceivers on networks using thick coax, fiber-optic, and other media; features its own power supply)* ..... $89.
15458 Apple Ethernet Thin Coax Transceiver *(for connecting directly to thin coax networks; self terminating)* ..... 89.
15461 Apple Ethernet Twisted-Pair Transceiver *(for connecting directly to standard 10BASE-T wall plates wired to a 10BASE-T hub; includes 3-meter RJ-45 patch cable)* ..... 89.

Put your Mac on a LocalTalk network with Apple Connector Kits—available for both modern Macs (DIN-8) and older Macs and IBM PCs (DB-9). We also carry their new Locking Cable and Connector Kits which lock the two links of cable for enhanced durability.



15465 LocalTalk RJ11 Connector Kit DB-9 ..... $35.
15462 LocalTalk RJ11 Connector Kit DIN-8 ..... 35.
15466 LocalTalk Locking Connector Kit DB-9 ..... 35.
15469 LocalTalk Locking Connector Kit DIN-8 ..... 35.
15467 LocalTalk Locking Cable Kit *(10 meter)* ..... 49.
15468 LocalTalk Locking Cable Kit *(25 meter)* ..... 79.

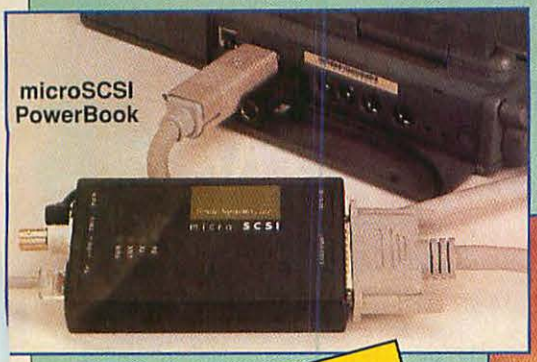
Affordable Networking Solutions



Looking for a plug-in Ethernet solution? The Sonic Systems **microSCSI** is a pocket-sized, ADB-powered device that allows Macs to link into an Ethernet network via the SCSI port. It requires no adapter card and no external power adapter, making it ideal for use with both PowerBooks and desktop Macs. It has both thin coax and twisted pair connections for complete versatility. Built-in LEDs allow easy diagnosis of network activity. A powerful, easy, and reliable connection solution! Desktop and PowerBook versions are available.

Sonic **Ethernet Cards** offer on-board twisted pair or thin coax and thick (AUI) connections and use 32-bit bus architecture for maximum throughput. All feature a Link Status LED for quick and easy troubleshooting; all come with Inside Ethernet diagnostic software. Sonic **AAUI Tranceivers** are ideal for Macs with built-in Ethernet, such as the Quadra family. They're solidly built and support a variety of cabling types.

Keep Remote Users Well-Connected!

Access network resources over ordinary phone lines!

Supports AppleTalk Remote Access, NetWare, and TCP/IP!

30 DAY MBG

Whether you're in distant deserts or far-off mountains, Shiva keeps you on the network. The Shiva **LanRover/E** 2.0 provides high-performance multi-port dial-in network access over NetWare, TCP/IP, AppleTalk Remote Access, Windows for Workgroups, and cost-effective modem pooling for network dial-out from the LAN. The new LanRover/E offers individual port reset, expanded logging, device and zone filtering, and roaming callback which allows remote users to set the phone number for their personal callback security, making it the best remote networking solution available. **NetModem/E** 1.5 is a fully-networked high-speed modem (up to 57,600 bps) that connects directly to your thin or 10BASE-T ethernet network cable. It gives Macs/PCs full dial-in/dial-out access to NetWare, Windows for Workgroups, and AppleTalk network services and connects disparate networks over ordinary phone lines. The **LanRover/L** is a single-port dial-in/dial-out server. Connect a modem to this AppleTalk device, and your PowerBook or remote Mac will be a fully-functioning network node, with access to file servers, e-mail, and all network resources.

8206	LanRover/E for NetWare 2.0 *(4 port)*	$2399.

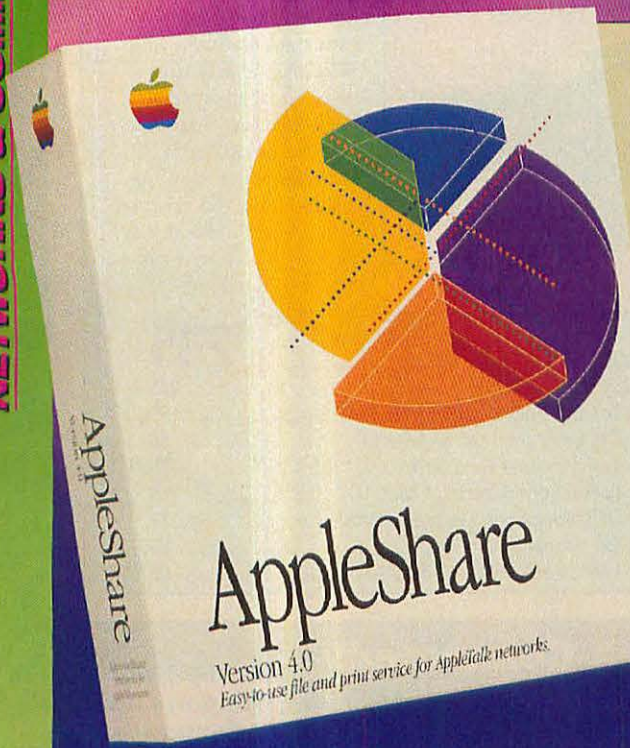
Apple Simplifies
Life in the Fast LAN.



Share it!

Share files and printers easily, securely and over multiple platforms with AppleShare 4.0, the latest addition to the AppleShare family. By giving Mac and Windows users access to the same documents, AppleShare File Server simplifies workgroup collaboration. By allowing users to continue working while their documents print, AppleShare Print Server improves productivity.

AppleShare 4.0 is specifically designed for small to medium-sized workgroups that need high-performance file and print services. It provides powerful, flexible security features; shared file storage for a workgroup of up to 150 network users and queued access to up to five network printers.

Version 4.0 is 3 times faster than Version 3.0, and supports additional network services through System 7 multitasking. It also features multiple password controls, document copy-protection and folder locking, inherited folder privileges, extensive Administrator controls, and the ability to accept simultaneous print requests. It even has a 1,000-job print log.

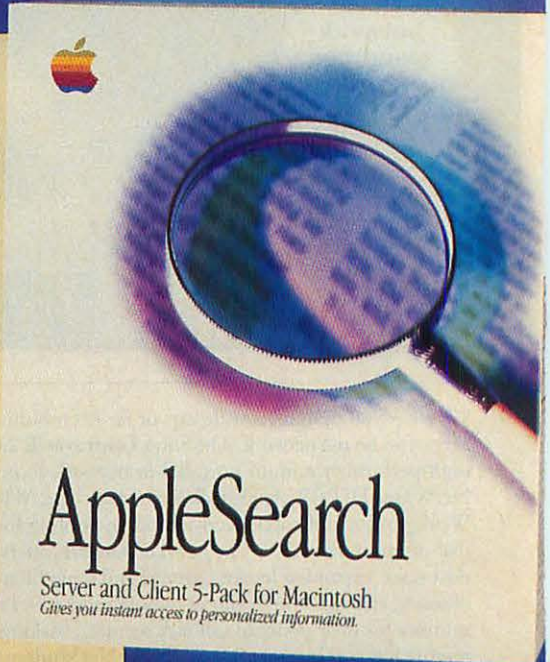
10453	AppleShare 4.0	**$1349.95**
14576	AppleShare 4.0 Upgrade	539.
7102	AppleShare 3.0	949.

Search it!

Stay in the loop by creating your own information retrieval service with AppleSearch. This new text search and retrieval program for workgroups lets you stay on top of the flood of data on your network by finding the information that matters to you—as defined in your search request(s). View text on screen or paste it into documents you're working on. You can see your search results even if you don't have the applications that were used to create the documents.

AppleSearch delivers information directly from the server to your desktop in a customized, newspaper-like update format, on any schedule you specify (or on demand). Other benefits of this innovative tool include:

- **Even novice users can initiate searches, no training involved.**
- **Search results are ranked so you can see which ones most closely match your search criteria.**
- **Documents remain on the server in their original form. AppleSearch uses file format translators to extract the text you want from various file formats.**
- **New documents are indexed automatically.**
- **The Administrator can monitor the flow of information.**
- **AppleSearch safeguards confidential information and lets you assign access privileges on an individual basis.**
- **Works with Quadra 610, 650, 660AV, 700, 800, 840AV, or 900 or a Quadra Workgroup Server 60, 80, or 90. Reqs. 8MB of RAM.**



12884	AppleSearch Server & Client 5-Pack	**$1389.**
13165	AppleSearch Client 10-Pack	369.

Anywhere in the world.

Apple Remote Access MultiPort Server provides simultaneous network access to multiple remote users. Used in conjunction with one or more Apple Remote Access Serial Cards, it converts a single Macintosh into a server that can support 4 dial-up connections (up to 16 with additional 4-Port Expansion Kits).

The software includes sophisticated security features and powerful administrative capabilities that let you track resource usage and generate activity logs. Plus, it supports the Apple's industry-standard Simple Network Management Protocol which makes it easy to add and reconfigure ports.

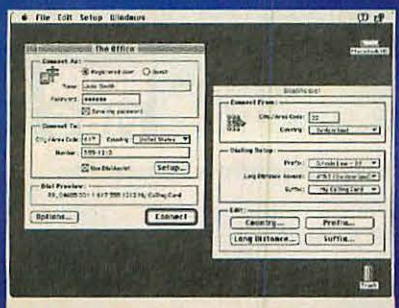
Remote users communicate with the MultiPort Server via Apple Remote Access Client. Its DialAssist feature makes dialing back to the office network simple, even for international travelers. You can also use ARA Client to connect to a Mac with ARA Personal Server software.

14230	Apple Remote Access MultiPort Server *(includes software for up to 4 ports)*	$1289.95
14229	ARA MultiPort 4-Port Expansion Kits	1149.95
14231	Apple Remote Access Client for Macintosh	54.95

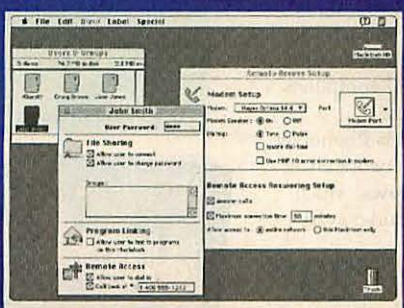
Need that big file back at the office? With Apple Remote Access Personal Server and a modem at both ends, you can take total control of your office Mac from anywhere in the world.

You get complete functional operation of all your programs and files. And, if your office Mac is on a network you can tap into all network services, exchanging e-mail, collaborating on projects, and even printing to network printers. ARA Personal Server supports a range of networks including LocalTalk, Ethernet, and Token Ring.

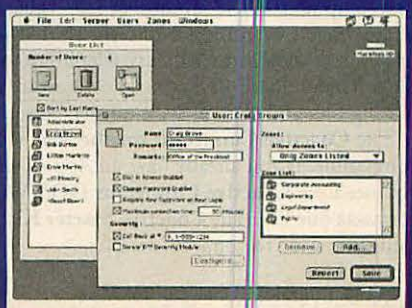
14250	Apple Remote Access Server Personal *(includes software for 1 client and 1 server)*	$189.95



Built-in DialAssist technology automates dialing back to the office even for international travelers.



Select the level of security that's most appropriate for each user. Also supported by third-party security vendors.



Planning for the future is easier with the comprehensive resource usage information provided by ARA.

Build a Network in 5 Minutes!

Connect Macs and PCs the easy way! **Coactive Connectors** work with your existing AppleTalk network, allowing you to share files and printers among DOS, Windows, and Mac computers. It's so easy, you can connect two computers in five minutes or less—guaranteed! Simply plug a Coactive Connector into the printer port of each Mac or PC, link them with ordinary telephone cord, and install the software. That's all it takes to connect up to 32 computers, sharing files and printers with normal commands.

The **Coactive Connector for the Mac** is 100% PhoneNet compatible. If you already have an AppleTalk network all you need is a **Coactive Connector DOS/Windows**, which connects one PC. The **Coactive Starter Kit** includes everything you need to connect two PCs.

$29.95

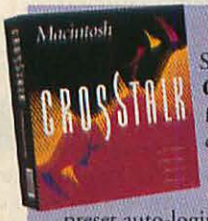
30 DAY MBG

A Communication Sensation



Surf the Internet highway with DCA's new **Crosstalk for Macintosh**. Transfer multimedia files via modem, send e-mail to friends, or connect to your company's mainframe. Includes *Comm Toolbox* support, QuickPads to customize logins, 15 file-transfer protocols, preset auto-logins to CompuServe, Delphi, Genie, and more.

14233 Crosstalk for Macintosh..... $119.95

Affordable Fax Power

Create, address, and send faxes directly from your Mac applications with **FAX^{stf}** 3.0 from STF Technologies. Despite its remarkable, low price, the new version of this popular fax software provides powerful fax capabilities. New features include: grayscale printing support; the ability to combine existing fax files into a single document and "envelope" existing fax files with a cover letter or QuickFAX; new user interfaces with separate windows for received, scheduled, held, and archived faxes; easy, direct access to modem and software settings (save multiple custom settings) and multiple options for monitoring, recording, viewing, printing, and exporting activity records. FAX^{stf} also includes standard fax software features like multiple phone books, background send/receive, on-screen fax viewing, custom cover sheets, and more.

The **STF AutoPak** includes four add-on applications to help you get even more from FAX^{stf} 3.0. STF Background Printing is a utility that reduces the time you spend waiting for documents to be converted into fax format for sending. *STF Developer's Kit* gives you the tools to add powerful, automate facsimile capabilities to databases and other custom applications. *STF AutoOCR* lets you automates optical character recognition of received faxes. And *STF AutoPrint* lets you automate the printing of received fax documents.

COMMUNICATION SOLUTIONS FROM DELRINA AND SUPRA.

Complete Fax Software Including OCR.

Conveniently send and receive faxes directly from your Mac with **Fax PRO for Macintosh.** It works completely in the background, so you can keep working while it's dialing or answering.

Combine documents from multiple applications and fax them to individuals or groups. Fax a document by dragging and dropping it on the FastFax icon. When sending more than one fax, set the priorities so important documents are faxed first. Fax PRO keeps a detailed log of all faxes. Search for faxes using any of the eight sorting criteria. Built-in optical character recognition (OCR) technology lets you convert faxes you receive into editable text without retyping.

Includes comprehensive address books, so you can keep multi-address books with names, delivery instructions, and fax numbers that you can automatically import.

10080 Fax PRO for Macintosh **$79.95**

The Total Solution.

What do you get when you cross a high-speed fax and voice modem with full-featured fax software with built-in OCR? You get complete communications. To be precise, you get the **SupraFAXModem V.32bis/Delrina Fax PRO for Macintosh Bundle.** A modem with 14,400 bps fax and data rates (57,600 compressed) and fax-management software with built-in OCR to turn any fax you receive into editable text and features to fax anything to anyone—anytime at all.

15628 SupraFAXModem V.32bis/Delrina Fax PRO for Macintosh Bundle **$269.95**

Your Credit Card isn't charged 'til we ship!

High-Speed Modems Including Voice.

Full Digital Messaging with the Voice Upgrade Kit

Featuring Caller ID and Silent Answer, the ability to route fax and voice calls. Send and receive data *and* faxes at 14,400 bps with the **SupraFAXModem 144LC.** Features drag-and-drop connection to phone lists, Chooser and keyboard selection of faxmodem, fax dialog box, Fax Manager, scheduled fax broadcasting, custom fax cover sheets, background S/R, and fax log. The **SupraFAXModem V.32bis** offers 14,400 bps fax and data rates and throughput with compression up to 57,600 bps. **SupraFAXModem 14.4 PB** offers the same V.32bis technology in an internal model. SupraFAXModems include *FAXstf* software (LC version), *Microphone LT*, appropriate cables, and lots of extras. The **Voice ROM Upgrade Kit** will turn your SupraFAXModem V.32bis into an answering machine.
